• Our Beautiful New Roses •

As shown on front page of cover.

THE TWO NEW ROSES FOR 50 CENTS.

New Hybrid Tea Rose, President Carnot—It is a Rose of the largest size, beautiful, both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitancy in saying that this charming Rose will become as popular as *La France*, as it has all the good qualities of that Rose, and at the same time is distinct in every feature. It is so handsome and distinct that it attracts immediate attention. It is indeed a wonderful Rose, one that everybody can grow and bloom. Price, fine young plants, 25 cents each; two-year-old plants, 50 cents each.

The Superb New Scarlet Rose, Climbing Wooton— This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wooton, can be said of this Rose, and more too. The flowers are large and of a beautiful velvety-red color, and the perfume is elegant. Whether open, half open or in bud the flowers are of fine shape. The flowers are borne at the terminus of long shoots, which render them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton.

There is always a demand for a good hardy climbing Tea, inasmuch as there are exceedingly few to be had. This Rose we believe to possess a very considerable degree of hardness, and should with protection stand the Winter almost anywhere. We consider this one of the best new Roses introduced for years, and as it can be planted out doors or in, doing equally well in either place, there is no question but that it will soon become immensely popular. Order a good plant now so as to have the first one in your neighborhood. Price, 25 cents each; two-year-old plants, 50 cents each.

The Royal "Jubilee" ❀
❀ ❀ Fuchsia Collection.

(See second page of cover.)

PRICE, 50 CENTS.

- 1 Annie Earle**—Tube and sepals waxy-white, corolla single, clear carmine, plant of splendid habit and free blooming.
- 2 The Black Prince**—A misnomer so far as name is concerned, being of a bright waxy-carmine tube and petals large and broad with pale green tips; large, open, pale pink corolla, a wonderfully symmetrical habit and the best all-round Fuchsia we know of.
- 3 Rosains Patri**—A variety unsurpassed among all the Fuchsias with white corolla. In fact, nearly perfect as to free growing and habit; strong and bushy, beginning to bloom quite early in the Spring and continuing very late. Tube and sepals are brilliant; deep scarlet, thick and leathery in texture; corolla is very large, double and pure white.
- 4 Madame Van der Strass**—Fine, large and elegant form; sepals long and reflexed; pure red, corolla large, double white. It is the finest market double white Fuchsia.
- 5 Jupiter**—All lovers of this beautiful class of plants will be pleased to note the addition of another variety of Fuchsias that produces such wonderful large flowers as Phenomenal. Jupiter is a sport from that variety and is similar to it in every respect, except in the coloring of the corolla, which is a beautiful shade of light magenta, with dark crimson veins.
- 6 Oriflamme**—Tube and sepals clear crimson, large, single red corolla; beautiful amaranth. The plant is a very free grower. It is one of the best varieties that have been sent out for some time.

The Royal "Jubilee" Set of Fuchsias as illustrated for 50 cents.

The New Wichuriana Roses

*As illustrated in colors on last page
of cover, for 50 cents, postpaid. ♣*

These charming Roses are of the same creeping habit as *Rosa Wichuriana*, trailing over the ground or creeping about the trunks of trees and pillars with delightful effect. They are beautiful for their foliage alone, which is finely cut, thick and leathery, brilliant deep glossy-green, keeping in perfection until midwinter. The flowers are exquisitely beautiful, deliciously fragrant, and borne in the greatest profusion. These Roses are of intense hardiness, and succeed in all soils, even on the poorest and driest conceivable

Manda's Triumph—The gem of the collection and may well be called the Double Memorial Rose. Very large, double flowers, fully two inches across, pure white, finely formed and sweetly fragrant, borne in large clusters.

Pink Roamer—This, in its flower, possesses the characteristics of the Sweet Briar, which is undoubtedly one of its parents, whilst its vigorous growth and handsome luxuriant foliage are those of the Wichuriana type. Its beautiful flowers are single, very large, brilliant rich pink with prominent orange red stamens, and delightfully sweet scented.

South Orange Perfection—A charming little plant growing close to the ground, a free Rambler, covered with the greatest profusion of perfectly formed, double flowers, one and one half inches in diameter, of a lovely, soft bluish-pink changing to white, which continues for a long time in perfect condition. It is a perfect gem, both in plant and flower.

Universal Favorite—The strongest grower of them all, producing long, branching shoots and dense green foliage. The blooms, too, are very abundant, of large size, double, of a beautiful rosy-pink, like that of Bridesmaid and delightfully fragrant. It is a splendid Rose for out door decoration.

Price, 15 cents each; a set of the four for 50 cents; strong two-year-old plants, set of four for \$1.00.

The Aurora Chrysanthemum Collection

(See third page inside cover.)

PRICE, 50 CENTS FOR COMPLETE SET.

- 1 Golden Wedding—**This is undoubtedly the grandest golden-yellow variety ever introduced and is the marvel of the period. Nothing can exceed the richness of its color; it is unrivaled in this respect. The form of Golden Wedding is unique; the outer petals droop downward in picturesque irregularity.
- 2 Miss M. M. Johnson—**Beautiful foliage, a stiff stem, and deep golden color, together with its fine form and great depth mark it as a leader among earlies. The flowers were in fine condition for cutting on October 10th, though grown on a low north bed, as we had failed to mark it dwarf the previous year.
- 3 Mrs. Higinbotham—**Enormous bright pink, broad spreading Japanese variety; with extremely wide cupping and incurving petals which are covered with glandular hairs. Was shown at Chicago exceeding eleven inches in diameter, and reported as the largest and best hairy variety ever exhibited.
- 4 Effie Dean—**New. An immense ivory-white variety; finely incurved petals, broad, shell-shaped, having flowers of the largest size. It is a pronounced sport from that fine variety, Maud Dean; originating with us and has never been offered before. It will doubtless take front rank among whites.
- 5 Mrs. Jerome Jones—**This is a fancy cut flower variety which completely captivated us. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. The outer petals are a delicate lavender, forming a decided band of color, the inner petals are clear lemon. A plant in bloom has a most beautiful, airy appearance.
- 6 Ivory—**Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its Dahlia-like petals and absolute purity of color.
- 7 Glory of the Pacific—**A superb, clear mermet rose-pink, petals thick and heavy, solid to the center, immense in size, having been exhibited eleven inches across; habit the best, stems stiff and erect, covered with most luxuriant foliage, the best pink in commerce, and the finest pink to date.

THE HOSTERMAN PUBLISHING CO. SPRINGFIELD, O.

WE TAKE PLEASURE IN
PRESENTING TO OUR
Friends and Patrons

OUR NEW ILLUSTRATED
CATALOGUE FOR 1898

And hope that it will meet with the same hearty appreciation as heretofore. We have published herein many new illustrations, the work of our own artist, and others by the most prominent horticultural and floricultural engraver in the United States.

Every means has been employed to have the book attractive and pleasing, and we hope that our customers and others will carefully look over the catalogue even if they may not send us an order.

Our entire establishment is under the direct care and supervision of the proprietors, thus insuring the best of attention. Believing with the major portion of the business world, that we are entering upon

an era of great prosperity in our land, we have made extra preparations this year to care for the large trade which we have reason to expect. With large and commodious new office and packing houses and a number of new greenhouses we believe our establishment to be one of the finest equipped and thoroughly up-to-date in the country.

All this enables us to grow our stock to greater perfection, to handle all orders entrusted to us with greater promptness, accuracy and care. Never before in our long business history have we been in such excellent shape to care for our customers. As we do not claim to be infallible, mistakes will sometimes occur, and we request that prompt notice of an error be sent us, that we may promptly rectify same.

Keep a copy of your order to compare with plants when received.

ORDERS LOST OR STOLEN. Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

USE OUR ORDER SHEET. Filling all the Blanks Carefully. In making out your order please use the convenient Order Sheet which accompanies each Catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

PLANTS BY EXPRESS. We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as is the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free), having the tops exposed. Plants packed in this manner will carry nicely for a great distance, and keep for a week or ten days in a fresh condition. Purchaser pays charges.

New Low Express Rates. We call attention to the new low express rate, which is a reduction of 20% from the regular merchandise rate, at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100 pound rates.

Remember, Plants can be shipped at a lower rate than any other class of merchandise.

PLANTS BY MAIL. When plants are ordered by mail, we prepay postage, delivering the plants free of all expense to any post-office in the United States. Orders amounting to less than 25 cents not accepted. It is difficult to pack small orders to carry through the mails safely. Moreover, the postage often amounts to the price of the plant or plants.

Canada Customers. In ordering plants sent to Canada please send 10 cents extra with each \$1.00 worth ordered, as the postage rate on plants to Canada is double that in the United States.

ALL ORDERS FROM CANADA MUST AMOUNT TO \$1.00.

OUR TERMS are Cash with the Order. No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

HOW TO REMIT—Postoffice Orders. The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 5 cents for \$5.00 and under.

Express Money Orders. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

Bank Drafts. These should be drawn on New York City, and made payable to the order of McGregor Brothers.

We will be responsible for money sent by any of the above methods.

Loose Money enclosed in a letter is at the risk of the sender.

Individual Checks cannot be received in payment for plants; neither can we accept Canada or Mexican silver or paper money. Postage Stamps. These can be sent for fractional parts of one dollar, or where Postoffice Order cannot be had. When stamps are sent get 5-cent or 10-cent, if possible, as we use more of them than any other.

REFERENCES. If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city.

The Beautiful New WHITE TEA ROSE

—WHITE MAMAN COCHET.—

The finest Rose of the year; like its parent the growth is vigorous with rich healthy foliage, producing large fine flowers of the purest white, in fact it is an exact counterpart of the beautiful Maman Cochet and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 25c each.

New Ever-Blooming Rose,

STAR OF GOLD.

New Rose, —————

HENRY M. STANLEY.

This grand new ever-blooming Rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber-rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff rose. The flowers are of good substance, very large, finely formed, and very full and fragrant. Price, 15 cents each; large plants, 30 cents each.

NO ORDERS ACCEPTED FOR AMOUNTS LESS THAN 25 CTS.

A Wonderful New Many-Colored Rose.

INCONSTANT BEAUTY.—See Illustration.

This new ever-blooming Rose from France is very remarkable in many respects, but the most notable is its ability to change its color. This Rose is almost identical with "Child's Jewel," but a much better Rose. We have seen bushes of this wonderful variety bearing at the same time coppery-yellow, deep rose, blush pink, mottled yellow and apricot, light and dark crimson Roses. These beautiful colors will sometimes be mottled in a single flower. A plant of this beautiful Rose, when in full bloom, presents a sight that is at once novel and pleasing. The buds and flowers are large, delightfully fragrant, and, as may be imagined, are exquisitely beautiful. It is a Tea Rose, and is, therefore, a constant bloomer. Its fragrance is delicious, and its being a vigorous grower makes it valuable for garden culture. This Rose produces a sensation wherever seen, and will, without doubt, head the list as a charming novelty for years to come. When in bloom at our greenhouse a good plant of it sells readily at two to three dollars each. The engraving gives an idea of the shape and outline of the Rose, but no idea of its variable color can be given in a wood engraving. Do not fail to try one of these beautiful Roses. Price, 20 cents; two-year-old plants, 40 cents.

New Tea Rose,

MADAME ELI LAMBERT.

A beautiful new Tea Rose. The colors are not particularly remarkable—scarcely unusual—and yet we have no hesitation in recommending it as one of the most beautiful and valuable Roses of which we have any knowledge. The flowers are extra large, fine, globular form, very full and well built up. The French description says it is the absolute perfection of form. The color is somewhat in the way of Madame de Watteville, but deeper; rich, creamy-white, faintly tinted with pale golden-yellow, and exquisitely bordered and shaded with soft rosy-flesh, exceedingly beautiful and very sweet, petals large and of good substance, constant and profuse bloomer, strong, vigorous and healthy grower—in short, a magnificent Rose in every way. Price, 15c each; large plants, 30c.

The Charming New Rose,

MRS. PIEREPONT MORGAN.

It is a sport from Mad. Cusin, and is in every way much superior to that variety, being a much more robust grower. The flowers are very much larger and very double, many of them measuring $4\frac{1}{2}$ inches through when in perfection; much larger foliage than its parent. The petals are broad and massive. Color is intensely bright cerise, or rose pink. It has received special certificates of merit wherever exhibited. No other forcing variety can compare with it in profusion of bloom even in dull weather, which is the more remarkable considering the size and substance of the flower. Price, 20 cents; two-year plants, 35 cents.

The New Tea Rose,

SOUV. DE LADY ASHBURTON.

Originated by one of the famous Rose growers of Paris, France, and named in honor of a noted English lady the wife of Lord Ashburton, one of the most noted English diplomats of the present time. The flowers of this superb Rose are exceedingly large and full, and are very beautiful, and can perhaps be best described as a fine shade of rich coppery-red, delicately suffused with pale orange-yellow; reverse of petals fine rosy-fawn color. It is highly scented with the true Tea Rose odor, heightened or intensified as the French description says, with the delicate perfume of peaches and apricots. Price, 20 cents each; two-year-old plants, 35 cents.

The Golden Yellow Tea Rose,

MEDIA.

We place this elegant Rose first in the list of new Roses for several reasons. In color it is a deep golden-yellow. There is no denying the fact that yellow and white Roses are admired by everyone, but the yellow has the more admirers of the two. The size and shape is all that could be desired, full, round flowers of the largest size, perfectly double to the center, and the fragrance is elegant. The growth is vigorous, while the foliage is of that beautiful tint of green that goes so well with yellow. If you have heretofore been disappointed in getting a yellow Rose that pleased you in particular, don't fail to try this one, as it will not only win your favor, but retain it. Price, 15 cents each; two-year plants, 35 cents each.

Palo Alto, Cal., Feb. 14, 1897.

McGREGOR BROS.:

I have just received the box of Roses which were not wilted at all. Thanks for being so prompt. Respectfully,

MRS. J. L.

Inconstant Beauty.

"Mosella."

The Charming New Yellow Rose,
"MOSELLA."—The Yellow Soupert.

This splendid novelty we have just secured from Germany; its origin is almost identical with that of the original Soupert, a cross of the Polyantha and the beautiful Tea Rose, Madame Falcot. It blooms in profuse clusters of three to five flowers, which are very double, ball shaped and open like a Camellia flower. The petals are tinted white, on beautiful light yellow ground extending to the middle of the petals. The plant is dwarf, bushy and free blooming. Offered for the first time this year. It is sure to be a popular companion to the original Clothide Soupert. Price, 15 cents each; two-year-old plants, 30 cents each.

Fine Crimson Tea Rose, PAPA GONTIER.

A grand red Tea, of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form, and you would never suspect from it that the Rose is only semi-double. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. Price, 10 cents each; large two-year-old plants, 25 cents each.

NEW HYBRID TEA ROSE,
MADAME SCHWALLER.

Like Puritan, this Rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright rosy-flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. Price, 10 cents each; large two-year-old plants, 25 cents each.

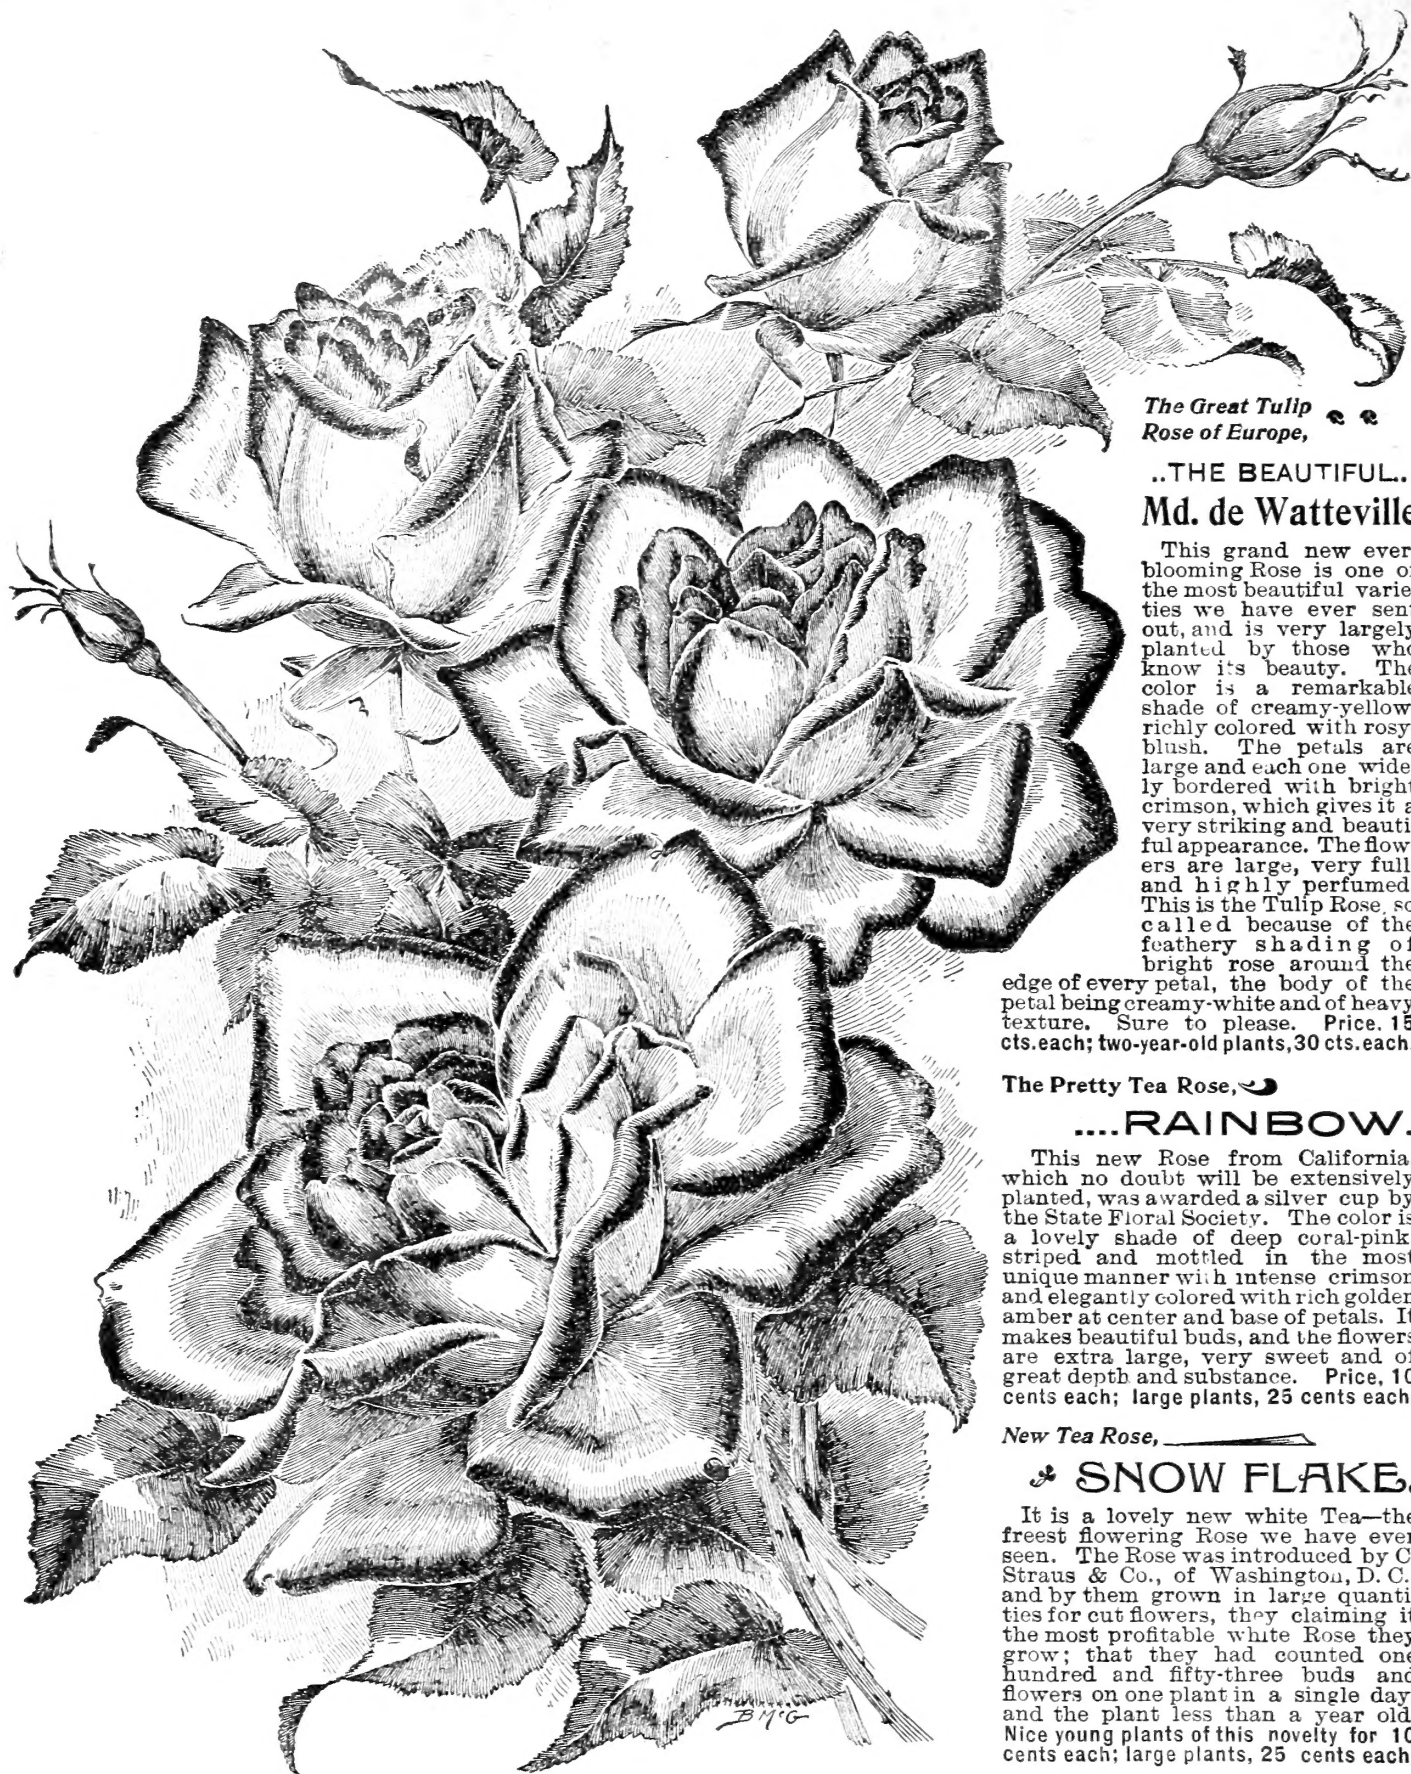

THE BEAUTIFUL NEW EVERBLOOMING

* **MAMAN COCHET.** *

It is a vigorous grower with beautiful foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. You can get an idea of the exquisite flower from the engraving. It is of the largest size, and, as you will notice, the flower is built up or rounded, and very double. The color is a deep rose-pink, the inner side of the petals being a silver-rose, shaded and touched with golden-yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. Be sure to try it, as it will not disappoint you. We can, with full confidence, recommend this Rose. Price, 15 cents each; large two-year-old plants, 35 cents each.

Maman Cochet.

*The Great Tulip
Rose of Europe,*

**..THE BEAUTIFUL..
Md. de Watteville**

This grand new ever-blooming Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy-yellow, richly colored with rosy-blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Sure to please. Price, 15 cts. each; two-year-old plants, 30 cts. each.

The Pretty Tea Rose,

....RAINBOW.

This new Rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral-pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet and of great depth and substance. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose,

SNOW FLAKE.

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., of Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted one hundred and fifty-three buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10 cents each; large plants, 25 cents each.

Md. de Watteville. (The Tulip Rose.)

New Tea Rose, THE QUEEN,

New Tea Rose, MADAME ETIENNE.

One of the very finest clear pink Tea Roses. The form of the flower is quite similar to that of Beatrice—that is, the petals recurve, giving it the shape of a Camellia. The texture is heavy, and the color is a warm, yet delicate pink, slightly deeper on the edge of the petal. A very beautiful variety, and freer in bloom than Catherine Mermet. This Rose is styled the dwarf Mermet by the French growers. Price, 15 cents each; large two-year-old plants, 30 cents.

A most charming Tea Rose. The off-spring of that fine old Rose, Souvenir d'un Ami, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good finely formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever blooming Roses. Price, 15 cents each; two-year plants, 30 cents.

McGREGOR BROS.:

Gentlemen—The box of lovely Roses arrived yesterday; planted at once and are doing well. Thanks for your very satisfactory response to my order.

Yours respectfully,

Waverly, Mass., June 2, 1897.

MRS. M. P. B.

THE FAMOUS
NEW HARDY CLIMBING ROSE,
Crimson Rambler.

The plant is of very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end, showing none of the objectionable purplish tint so common in crimson Roses. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is said to be exceedingly hardy, having successfully withstood the tests in exposed situations of two very severe Winters in England. It is hardy in every latitude yet tried as far north as the lakes. As a decorative pot plant it cannot be excelled. We can recommend this novelty in the strongest manner as being a new Rose of great importance and value. This Rose received gold medals from the National Rose Society, of England, and the National Horticultural Society, of France, the International Exposition at Earl's Court, as well as numerous first-class certificates. There has no Rose ever been introduced up to the present time that has had as much written and said about it as this famous Rose, and of course everybody will have to have one or more plants of it. We have an immense stock of it in perfect health, so that all who purchase of us will be pleased. Price, 15 cents each; two for 25 cents; two-year-old plants, 30 cents each; two for 50 cents.

Crimson Rambler.

The Beautiful New Rose,
**Crown Princess Victoria,
or White Malmaison.**

This Rose is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure waxy snow-white, the center of the flower has a lemon tint, just enough to light up and brighten it, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Resembles that grand old Rose, "Malmaison," in shape and fullness. We doubt very much if there is a finer Rose grown than this one. It is grand in every respect. We have tested it fully for five years, and each year only confirms our high esteem for it. The best white Rose we have to offer you. Price, 15 cts. each; large two-year-old plants, 30 cts. each.

The Grand Old Rose,
Souvenir de la Malmaison.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry Summers. Exquisitely fragrant. A noble Rose. Price, 10 cents each; large two-year-old plants, 30 cents each.

Pueblo, Colorado, April 12, 1897.

McGREGOR BROS.:

Sirs—Roses came in fine condition, all look bright and fresh today (six days after planting), and even show new growth. Many thanks. MRS. R. B.

Crown Princess Victoria, or White Malmaison,

The Gem, or Fair Unknown.

New Tea Rose,

GOLDEN GATE.

This magnificent Rose is a cross between the old greatly admired varieties, Safrano and Cornelia Cook and while combining the good qualities of both is vastly more beautiful than either. It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it. Price, 15 cents each; large plants, 30 cents each.

New Tea Rose,

SOUV. DE VICTOR HUGO

A bright China Rose, with copious yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. This variety ranks with the best, and is a Rose of decided merit. The relationship to Duchess de Brabant assures us of a free bloomer, and in size and length of bud equal to the best Teas. Price, 10 cents each; large two-year-old plants, 30 cents each.

New Hybrid Tea Rose,

PIERRE GUILLOT.

One of the finest and most valuable in the whole list. Bright, dazzling crimson, passing to brilliant carmine. Flowers large, very double and full, and highly scented. A healthy and vigorous grower, and a constant bloomer from June until frost. The outer petals are broad, round and decidedly recurved, showing the short, closely set inner petals. Among the few good ever-bloomers this ranks very near the front, for it is double, without a tinge of disagreeable shade, and always in bloom. Price, 15 cents each; large two-year-old plants, 40 cents each.

Pierre Guillot.

NEW ROSE,

The Gem, or The Fair Unknown.

This Rose is identical with Marie Van Houtte, except that it is claimed to be twice the size. We have seen enough to know that it will do to talk about and praise. Of a fine, faultless, straw-yellow color, with the outer petals washed and outlined with a bright rosy-crimson. Occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. Price, 15 cents each; large two-year-old plants, 25 cents each.

**The Waban, or Carmine Mermet**

In foliage and vigor it resembles its parent. Flowers borne on long stems, in form somewhat larger and exceeding in size and number of its petals. Color carmine-pink (when we say "carmine" we mean all that the word implies), shaded brilliantly on the outside petals, color increasing in intensity toward the end of petals, and approaching the center of the bud, each petal increases in intensity of color. Reflex petals more delicate in color, but shaded stronger at the end of the petal. It has received the silver medal of the Massachusetts Horticultural Society, and a certificate of merit from the Pennsylvania Horticultural Society, where it has been exhibited as an extra fine new Rose. Price, 10 cents each; large plants, 35 cents each.

For every dollar's worth of plants you order at price per single plant, you may select from this Catalogue 20 cents' worth of extra plants as premiums, except on special offers or collections, to which this offer does not apply.

A PAGE OF NEW RAMBLERS

The New Hardy Yellow Climbing Rose.

THE YELLOW RAMBLER.

The advent of the Yellow Rambler marks a very important epoch in the Rose world. It was originated by the prominent German Rose grower, Mr. Peter Lambert, who has carefully tested it for some eight years, and first offered it to the public only this last season. Its production is a very great triumph in the art of hybridizing. Rosarians have for many years been crossing or hybridizing various Roses with a view to obtaining a hardy yellow climbing Rose, but the combination of climbing habit and yellow coloring with hardiness was one that it seemed impossible to obtain, and was almost despaired of. It was a result so greatly desired, however, that repeated efforts were made to secure it, and the Yellow Rambler represents the most complete success ever obtained by anyone. The Yellow Rambler has been found to successfully withstand, without protection, a continued temperature of from zero to two degrees below, which proves it to be far harder than any other yellow climbing Rose yet introduced, and we believe that by laying the plants down in the Winter it can be successfully grown

in nearly all the northern parts of the United States; in fact, anywhere that other Roses succeed at all well. Did we say nothing more about the Rose, we think that this would be sufficient to establish its value, for what lover of Roses in the North has not bewailed the severity of climate which nearly deprives his garden of the most attractive color of all—yellow. The flowers are borne in immense clusters, after the same manner as the Crimson Rambler, often as many as one hundred and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet scented. The habit of growth is very vigorous, well established plants often making shoots of from eight to ten feet in height in a single season. The plants do not bloom at quite so early an age as the Crimson Rambler, but as soon as well established, they more than make up for this by the magnificence of the flowers they produce. Price, 10 cents; two-year plants, 25 cents.

Gentlemen: The Roses ordered came to hand today, and I am very well pleased.

The Yellow Rambler.

THE BEAUTIFUL NEW WHITE CLIMBER,

WHITE RAMBLER.

Of German origin and in habit of growth, foliage, manner of blooming, form of flowers and hardiness it is said to be identical with Crimson Rambler, of which it is a blood relative, but that the flowers are pure snow white and sweetly scented—which the flowers of Crimson Rambler are not. The flowers "remain on the bush from three to five weeks; beautiful to behold." Price, 10 cents each.

White Rambler,

Charming New

Hardy Climbing Rose,

PINK RAMBLER.

Originated by the same gentleman who produced White Rambler, Mr. Peter Lambert, and is of the same blood. What is said of White Rambler applies equally to this, except the color of the flowers is pure shiny rose—the partially open buds being bright, light carmine, thus producing a strong and pleasing contrast. "The numerous yellow stamens lend an additional charm to the flower. In hardiness, freedom of bloom, form and color of flower and vigorous climbing habit, this variety is fully the equal of Crimson Rambler." Price, 10 cents each; two-year plants, 25 cents.

Pink Rambler.

The three New Ramblers for 25 Cents. Strong two-year plants, 60 Cents for set of three.

Pernet's Triumph.

The Beautiful New Rose

PERNET'S TRIUMPH,

The Finest All-Round Crimson Rose to Date.

Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translated would read, "Triumph of Father Pernet"), and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; large plants, 35 cents.

The Beautiful Rose

✿ ✿ **MADAME WELCHE.**

The flowers have great depth and substance, and are of fine globular form, with broad, thick petals, and large, finely shaped buds. The color is a beautiful shade of soft amber-yellow, deepening towards the center to orange or coppery-yellow, delicately tinged and clouded with a pale, ruddy crimson. Both flowers and buds are remarkably sweet and the plant is a good, healthy grower, of a compact, bushy habit, producing its exquisite buds and flowers in great abundance during the whole growing season. It is fine for the conservatory, and none better for open ground. Price, 10 cents each; large two-year-old plants, 30 cents each.

... New American Rose, ...

SENATOR MCNAUGHTON.

(White Perle des Jardins.)

This fine white Rose originated with Mr. Jos. Bevis, of Philadelphia, as a sport from Perle, and is a grand variety. In foliage and growth, it is identical with Perle; the flowers are of the same form and size, while the color is an ivory-white of great purity. This variety will prove invaluable to rose growers, for it is of the same easy management as Perle, requiring the same temperature and treatment; and if there is a difference in freedom of bloom, it is in favor of Senator McNaughton. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Grand New Velvety-Red Rose

✿ **CLIMBING METEOR.** ✿

All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red Climbing Roses. It is a free, persistent bloomer and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of Roses for Summer blooming, as it will make a strong growth and is literally loaded with its deep, rich red flowers all the time. Its flowers are much larger than Meteor and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor. Price, 15 cents each; two-year-old plants, 30 cents each.

McGREGOR BROS.:

Gentlemen—The Roses which came yesterday are much finer than I expected. They are the nicest plants I ever had from any florist, and the best packed.

Chicota, Texas, February 10, 1897.

New Tea Rose,
Charles Legrady

This splendid Rose has proven one of the most satisfactory for general planting. Here on our own grounds a bed of it always makes a grand display all Summer long. Magnificent large buds and flowers of great beauty. Color a fine chamois-red, richly shaded with darkest crimson. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. For smoothness, richness and finish, this Rose is without a rival. Extra fine. Don't fail to try it. Price, 15 cents each; large two-year-old plants, 35 cents each.

Ella May.

New Tea Rose, **ELLA MAY.**

This is a sport from that grand old variety, "Sunset," which it strongly resembles, only that the color is deeper and richer in Ella May even than it is in that elegant variety. The Ella May is a great favorite wherever known, the color is a rich, golden-amber or old gold, elegantly shaded with dark, ruddy-crimson, resembling the beautiful tints seen in a Summer sunset; the flowers and buds are extra large, full, finely formed and deliciously perfumed; it is a strong, vigorous grower and free bloomer, highly recommended both for open ground and house culture. One of the most beautiful Roses we grow. It pleases everybody. Price, 15 cents each; large two-year-old plants, 40 cents each.

The Grand New Rose,
CHAMPION OF THE WORLD.

THIS is in all around good qualities the greatest ever-blooming Rose in cultivation, especially for Winter blooming. It is the champion bloomer. It commences to bloom as soon as potted from the propagating bench, and continues in the greatest profusion all the time, both Summer and Winter. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. It is always in full bloom. Plants which have bloomed all Summer in the garden may be potted in the Autumn, and they will immediately start new growth, and bloom profusely all Winter in any window. The blossoms are

perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy-pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France or the best Hybrid Perpetual. For Winter blooming this Rose surpasses all others. It will flourish and bloom profusely where all other sorts fail, and is just what has long been wanted, a fine, free flowering Rose for window culture during Winter. Price, 15 cents each; large two-year-old plants, 35 cents each.

Maud, Pa., June 13, 1897.

A Set of Four Wonderful

New Climbing Roses.

SET OF FOUR FOR 40 CENTS.

SET OF TWO-YEAR-OLD PLANTS \$1.00.

The New Climbing Rose, Empress of China—This is a new Climbing Rose of the greatest excellence. It was brought to this country by a gentleman from Cuba, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until December. Think of it! There is no other Rose like it that will bloom for so long a time. This has been the great objection to Climbing Roses, that they bloom once and then are done. But here we have a Rose that blooms continuously for over seven months of the year. It is simply wonderful. It is perfectly hardy, and is a continuous grower. Price, 10c each.

The Beautiful Hardy Climbing Mary Washington Rose—This Rose, so widely advertised, is claimed by the introducer to have originated in the garden of George Washington, at Mt. Vernon, over one hundred years ago. It is an everblooming Climbing Rose of vigorous and rapid growth, and makes a profusion of fine buds, which are borne in fine clusters. Pure white, perfectly double, very sweet, and borne in endless numbers all Summer. Price, 10 cents each.

The Great New Climbing Rose, Crimson Rambler—Originally received from Japan. Flowers are produced in great pyramidal panicles or trusses, carrying from 30 to 40 blooms, the individual flowers measuring about 1 to 1½ inches in diameter, and remaining perfect on the plant for upwards of two weeks with their freshness of color unimpaired; foliage bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is exceedingly hardy. Price, 15 cents each; two-year-old plants, 30 cents.

The Fine New Climber, Climbing White Pet—This is an unusually vigorous grower and a wonderfully profuse bloomer. It is remarkable for the rapidity of its growth and freedom of bloom. The flowers are very double and full, of medium size, pure snowy-white, and borne in large clusters continuously throughout the whole season. Price, 15 cents each.

Empress of China.

New Tea Rose, . . .

MAURICE ROUVIER

One of the distinguishing characteristics of this superb new Rose is its enormous size—the flowers are immense; fine globular form, very full and exceedingly sweet; the color is bright pinkish rose, elegantly tinted with shades of buff, prettily veined with deep shining crimson, while many of the petals have a wide border of silvery-white, which gives the flower a lighter effect than the color would indicate. It is a good, strong grower and most prolific bloomer, well worthy of high commendation. Price, 10 cents each; large two-year-old plants 30 cents each.

Superb New Tea Rose,

J. B. VARRONE.

There is no question about this being a truly splendid Rose. It has the form, color and substance of those very choice and valuable varieties which only come occasionally. Superb elongated buds, and extra large, vase-shaped blooms. Color an intensely scarlet-crimson, very rich and bright, beautifully shaded with salmon-yellow or buff-rose at center. Very beautiful and sweet. See illustration. Price, 15 cents each; large two-year-old plants 30 cents each.

White Hermosa.

Two Unequaled Roses,

The Bride and Bridesmaid.

The two for 25 cents; large two-year old plants for 50 cents.
No further discount.

White Tea Rose, THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long, stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes pinkish-white, at other times a beautiful pure white. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose, BRIDESMAID.

Here we have a new Rose, a sport from that old standby, Catherine Mermet. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. Price, 20 cents each; large two-year-old plants, 30 cents.

A Vase of Bridesmaid Roses.

The Three Hermosa Roses

For 30 cents; large two-year size, 75 cents. No further discount on this offer.

The White Hermosa, Marie Lambert—This is a lovely white Rose, a pure Tea, but a foreign seedling, the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot Rose. We counted on one plant 143 buds and flowers in a single day, and the plant was only 9 months old. Try it. Price, 15 cents each; large plants 30 cents each.

Yellow Hermosa Rose, Coquette de Lyon—No Rose like it for freedom of bloom. The plant is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the Yellow Hermosa from its free-flowering character. We do not know any Rose that will give the satisfaction that this variety will and we heartily recommend it. Price, 15 cents each; large plants, 30 cents each.

The Old Ever-Blooming Rosa, Hermosa—We believe the Hermosa is the best known in the entire Rose family, and a universal favorite. Hardy as a lilac bush and as free-flowering as the Geranium; it combines everything most desirable in a Rose. The flower is cupped, finely formed and full, color most pleasing shade of pink, soft but deep, very fragrant. Price, 10 cents each; large plants, 25 cents each.

McGREGOR BROS.: Clinton, Mass., March 19, 1897.

Dear Sirs—I received the Roses nice and fresh in good condition. Thanks.

Yours respectfully,

MRS. W. A. F.

The Great "Soupert" Collection of Roses

THE BEAUTIFUL NEW PINK SOUPERT.

This bright new Rose is a very free flowering variety, much resembling *Hermosa*, but more double and flowering more freely; it shows the *Polyantha* blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the *C. Soupert*. The flowers are not quite so large, full and handsome as our original *Soupert*, but fill a place because of their brightness and freedom. The habit of the plant is almost identical with *C. Soupert*. Each, 15 cents; two-year plants, 35 cents.

YELLOW SOUPERT OR MOSELLA

Is another novelty that has been wanted for some years. Who does not know the beautiful *Clothilde Soupert*, the splendid bedding Rose? *Mosella* is a stronger grower, flowers are a little larger than the *Clothilde Soupert*, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy-white on the edges of the petals; it will make a great bedder and perfectly hardy. Price, 15 cents; two-year plants, 35 cents.

WHITE SOUPERT OR LEONIE OSTERRIETH.

We have given this Rose an extended trial, and believe there is no better white Rose grown. The buds are of a good size, the flower full and double, and deliciously fragrant, pure porcelain white, with deep center. In freedom of bloom this charming variety rivals the *Polyanthas*. Price, 15 cents; two-year plants, 35 cents.

The Famous Hardy Ever-Bloomer, CLOTHILDE SOUPERT.

This Rose originated with Messrs. *Soupert & Notting*, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose "*Ball of Snow*." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities. Price, 10 cents each; large plants, 30 cents each.

SPECIAL OFFER—The Great *Soupert* Collection for 40c. Two-Year Plants for \$1.25.

General Lee.

A CHARMING NEW TEA ROSE GENERAL ROBERT E. LEE.

(Introducer's description.) This is the first Rose that we have introduced, and we are sure that it will please all who try it. It is in color an orange-yellow, after the color of *Mad. Capucine*, only richer and better. It is a good grower, has elegant long buds, borne on long stems, and will produce more buds than any Rose we know of. It forces easily, being at its best in mid-winter. There is no variety that will compare with it in all the qualities that go to make up the ideal Rose. The color is so peculiar and rich that it attracts attention wherever seen. Try it. Price, 10c each; two-year-old plants, 25c each.

New Rose,

The Gem, or the Fair Unknown

This Rose is identical with *Marie Van Houtte*, except that it is claimed to be twice the size. We have seen enough to know that it will do to talk about and praise. Of a fine, faultless straw-yellow color, with the outer petals washed and outlined with a bright rosy crimson. Occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. Price, 15c each; large two-year-old plants, 35c each.

A Set of Crimson
Beauties in **ROSES.**

THE GRANDEST OF ALL,

THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 15 cents each; large two-year-old plants, 35 cents each.

THE BEAUTIFUL NEW CRIMSON BEDDING ROSE,

MARION DINGEE.

This grand new Rose was raised from seed of the beautiful Countess de Casserta crossed with Duchess of Edinburgh. Marion Dingee promises to be of extraordinary value. It is a strong, vigorous grower, making a handsome, graceful bush, with large, thick deep green leaves. The flowers are large, beautifully cup-shaped. It is a deep brilliant crimson, one of the darkest, if not the very darkest and richest colored Tea Rose in existence. Price, 15 cents each; two-year-old plants, 35 cents each.

NEW RED TEA ROSE,

PRINCESS HOHENZOLLERN.

A very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep, satiny-red, with lighter center. Price, 15 cents each; large plants, 30 cents each.

The Meteor.

THE QUEEN OF BEDDING ROSES,

CRIMSON BEDDER.

This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery-scarlet, a color seldom seen in Roses, indeed a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. Price, 10 cents each; large two-year-old plants, 30 cents each.

NEW CRIMSON TEA ROSE

CHRISTINE DE NOUE.

This beautiful new red Tea is a very charming Rose, and promises to be one of the best of recent introduction. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright, deep green foliage; a constant and very free bloomer; the flowers are well-borne upon strong stems, and are unusually large and handsome; the buds are long and finely pointed, and the color a clear, rich maroon, or deep purplish-red, passing to lake, center sometimes streaked with silvery-white; the petals are finely imbricated, and the flowers are deliciously sweet. It is highly recommended as a valuable and in every way desirable Rose for general planting. Price, 15 cents each; large two-year-old plants, 40 cents each.

Christine de Noue.

❖ BEAUTIFUL LA FRANCE ROSES. ❖

PINK LA FRANCE.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extolling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents each; large size, 30 cents each.

WHITE LA FRANCE.

(Augustine Guinnoiseau.)

Here we have a beauty indeed, one we recommend to all, whether for out door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly-white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. Price, 15 cents; large size, 30 cents.

SPECIAL OFFER—The four La France Roses for 40 cents; two-year size, \$1.00.

White La France.

THE RED LA FRANCE.

(Or Duchess of Albany.)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents; large size, 30 cents.

STRIPED LA FRANCE.

(Madame Angelique Veysset.)

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs from it only in two points: First, it is freer in bloom than the parent; second, it is nicely striped, the markings being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. Price, 15 cents; large size, 30 cents.

Pearl of the Garden.

The Beautiful Tea Rose,

❖ Pearl of the Garden. ❖

Perle des Jardins—The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but is a perfect and popular Rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equalled in beauty by the open Rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being tipped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. Price, 15 cents each; large plants 35 cents each.

Kind Sirs: The Roses I sent for received yesterday in good order. I am very much pleased with them as they are much larger than I expected.
Binghamton, N. Y., February 5, 1897.
Mrs. O. L. E.

Queen Augusta Victoria.

New Tea Rose,

Queen Augusta Victoria.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price, 15 cents each; large two-year-old plants, 40 cents.

Hardy, Ever-Blooming Rose,

• • Mrs. De Graw. • •

Every one wants a hardy, ever-blooming Rose, and when our attention was called to this grand variety we at once took steps to procure a stock of it. Following our usual practice, we gave it a thorough trial before offering it, and we are glad to say

that it has fully justified the high opinion formed of it when first seen by us. It is with the greatest pleasure, therefore, we announce to our customers that we can confidently recommend it as being entirely hardy, equaling the tender sorts in profusion of bloom. From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy-pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden or cemetery. A Royal Rose. It is a wonderfully prolific blooming variety. Every shoot is loaded with flowers. Price, 15 cents each; two-year-old plants, 30 cents each.

New Tea Rose,

Souv. de Clairvaux.

The flowers are extra large, having a deep, full form, well built up; the buds, too, are large, long and pointed, altogether giving an idea of luxuriant beauty that few Roses possess. The color is bright pinkish-rose, very rich and handsome, and shading darker or lighter, according to season and temperature; when fully open the base of center is seen to be finely shaded apricot-yellow. Price, 15 cents each; large plants, 30 cents each.

The Beautiful Yellow Tea Rose,

• • Star of Lyon. • •

(Etoile de Lyon.)

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer. Price, 15 cents each; large two-year-old plants, 30 cents each.

Star of Lyon.

White Hermosa.

The Superb Yellow Rose, MARECHAL NIEL.

The most popular of all. A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over; they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Niel at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the plants priced at 25 and 50 cents, although one of our customers wrote us from Louisiana that a small 10 cent Marechal Niel bought of us in the Spring, made strong shoots thirty feet in height by Fall. Price, nice, well established plants, 10 cents each; larger, at 25 cents each; extra large, 50 cents each.

New Tea Rose, GUSTAVE NADAUD.

A free branching grower, with large, double flowers. The outside petals are large and rounded, giving it an exquisite cup shape. Color vermillion, with clear touches of carmine lake and soft pink center. Price, 10 cents each; large plants, 25 cents each.

New Tea Rose, PROF. CANIVIAT.

Vigorous in growth and free in bloom. Flower double and of good form, of the color of Souvenir Therese Levet. A brilliant crimson. Price, 10 cents each; large plants, 25 cents each.

New Beautiful Tea Rose.

MADemoiselle CECILE BERTHOD.

Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. This is a Rose of magnificent size and color. We grow of this variety alone over fifty thousand, which is an evidence of how we prize it. Altogether a grand Rose, and always in bloom. Price, 10 cts. each; large two-year-old plants, 25 cts. each.

Isabella Sprunt.

The Fine Ever-Bloomer, Marie Lambert, or White Hermosa

Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. It is the finest blooming white Rose we offer. Price, 10 cents each; large two-year-old plants, 25 cents each.

The Premier Bedding Rose, Queen's Scarlet.

This is, without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery-scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 10 cents each; large two-year-old plants, 25 cents each.

New Tea Rose, Mademoiselle Franciska Kruger.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shadings of deep coppery-yellow, it stands unique and distinct from all others. The flower, when open, is of good size and very symmetrical. Price, 10 cts. each; large plants, 25 cts. each.

Mademoiselle Cecile Berthod.

New Ever-Blooming Rose, CLIMBING PERLE DES JARDINS.

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur rose growers alike as the Perle des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. Climbing Perle is even more vigorous and floriferous than the bush form. It is hardy in the South. Price, 15 cents each; large two-year-old plants, 30 cents each.

The Beautiful Memorial Rose, ROSA WICHURIANA.

This hardy and lasting Rose creeps over the ground like Ivy. The leaves are glossy, dark green and handsomely notched. The flowers, which are borne very profusely during July, are large, pure white, single, with yellow center, and have a strong, wild rose fragrance. It is one of the very best plants for rock work, embankments, slopes, cemeteries, etc. Price, 10 cents; two-year-old plants, 25 cents each.

New Tea Rose, SOUV. DE VICTOR HUGO.

A bright China Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. This variety ranks with the best, and is a Rose of decided merit. The relationship to Duchesse de Brabant assures us of a free bloomer, and in size and length of bud equal to the best Teas. Of decided merit. Price, 10 cents each; large two-year-old plants, 30 cents each.

The Charming Yellow Tea Rose, ISABELLA SPRUNT.

A bright Canary yellow, large, beautiful buds, suitable for cut flowers, a very sweet Tea scent, profuse bloomer. It is no doubt the freest flowering of all yellow Roses. This variety has been a favorite in all gardens where good yellow Roses are planted for the past twenty years. There are none better. Price, 10 cents each; large two-year-old plants, 40 cents each.

ROSES FOR 50 CENTS.

We have combined in this collection only such kinds as bloom freely, and that will stand zero weather. No change will be made in the collection. It must be ordered complete.

Meteor—A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich red Rose for the garden ever introduced. Price, 10 cents each.

Marie Lambert, or White Hermosa—Pure white. It has been called the White Hermosa, as it resembles Hermosa in form and freedom of bloom, and is quite as valuable; for though no claim has been made for it as a fancy Rose, its persistence in bloom will make it a very popular white variety for bedding or for pots. This Rose is fast becoming popular, as there is no better white Rose. Price, 10 cents each.

Papa Gontier—Large, finely formed buds and flowers, fragrant. This variety will be much sought after on account of its beautiful and full buds for wearing and vases. The flowers are large and long, with thick, broad petals of a dark carmine-crimson, changing to pale rose. A bunch of flowers, when fully opened, is almost equal to a bunch of Hybrids. Price, 10c.

Duchess de Brabant—A bright China Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. This variety ranks with the best, and is a Rose of decided merit. Free bloomer, and in size and length of bud equal to the best Teas. Price, 10 cents each.

Queen's Scarlet—A very desirable and satisfactory Rose; showy and attractive, a constant and profuse bloomer. The flowers are rich, velvety-scarlet, very brilliant and striking; very large and full; hardy and of vigorous growth. Price, 10 cents each.

Marie Guillot—This beautiful Tea Rose continues in popular favor, and still maintains its position as one of the best white Roses of its class. Flowers of an unusual style, entirely double to the center; very sweet-scented. Habit of growth the best. Price, 10 cents each.

Madame Schwaller—New. Blooms in large clusters. Large globular flowers; color transparent salmon-rose; very delicate and tender; petals finely edged with violet-carmine; highly perfumed. Very fine. Price, 10 cents each.

Mademoiselle Franciska Kruger—The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep copper-yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. One of the finest Roses to plant in masses and clumps. Price, 10 cents each.

Clothilde Soupert—The color is a French white, deepening to a rosy-blush in the center, exceeding in distinctness of shadings the well known Malmaison. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom, even the smallest plants being literally covered with flowers. The form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either. Price, 10 cents each.

Md. Schwaller.

Madame Welche—The flowers have great depth and substance, and are of fine globular form, with broad, thick petals, and large, finely shaped buds. The color is a beautiful shade of soft amber-yellow, deepening towards the center to fine orange or coppery-yellow, delicately tinged and clouded with pale ruddy crimson. Both flowers and buds are remarkably sweet. Price, 15 cents each.

Etoile de Lyon, Star of Lyon—This magnificent Tea Rose is a rich, golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Remarkably hardy, frequently standing the Winters in open ground without protection, blooming through the hottest part of the Summer. Price, 10 cts. each.

Mrs. DeGraw—From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy-pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; it is certain to be unequalled for the garden or cemetery. A royal Rose. Price, 15 cents each.

Certainly the most beautiful of this color we grow. It is a free-bloomer. Price, 20 cents each; large two-year-old plants, 40 cents each.

The Charming and Bright Colored Rose,

ULRICH BRUNNER.

A Superb Rose. A seedling from Paul Neyron. Extra large, bold flowers, full and globular, petals large and of good substance. Color a rich, glowing crimson, elegantly lightened with scarlet. Fragrant. Price, 15 cents each; large plants, 35 cents each.

Hardy Perpetual-Blooming Rose,

Madame Charles Wood.

A true perpetual bloomer. Begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, and quite fragrant. Color a bright, fiery scarlet, passing to fine rosy-crimson elegantly shaded with maroon. Very showy and handsome, and one of the best Roses ever introduced for general planting. Price, 15 cents each; two-year plants, 40 cents.

HARDY ROSES—HYBRID PERPETUALS.

WHEN you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual it must be understood that they are not such early and constant bloomers as the Ever-Blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories; also in the colder parts of the states of Virginia, W. Virginia, Kentucky, Tennessee, N. Carolina, Arkansas, Missouri, etc.

New Yellow Hardy Rose, GLOIRE LYONAISE.

This grand Rose is the only yellow Hybrid Perpetual we have. It cannot be called deep yellow, but rather a pale shade of chamois or salmon yellow, deepest at center, sometimes passing to rich creamy-white, finely tinted orange and fawn. Price, 15 cents each; large two-year-old plants, 40 cents each.

Hybrid Perpetual Rose, GLORY OF BRUSSELS.

Flowers finely formed, large and perfectly double. Color bright crimson, of velvety texture. A Rose of unusual merit. We are pleased with it. One of the very best new Hybrid Roses of last year's importations. Price, 15 cents each; large two-year-old plants, 40 cents each.

Captain Christy.

The Beautiful Pure White Hardy Climbing Rose,

PERFECTION DES BLANCHES.

A fine-formed, pure white Rose. Occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged. Flowers of good size, perfect and of fine form and finish. One of the finest, freest and most beautiful of the white Hybrids. Almost as free a bloomer as the Teas. Very suitable for cemetery planting, and for hedges, as it makes a beautiful bush. Price, 15 cents each; two-year-old plants, 35 cents each.

For every dollar's worth of plants you order you may select from this Catalogue 20 cents' worth of extra plants as premiums, except on special offers or collections, on which this offer does not apply.

THE BEST ALL-ROUND HARDY ROSE

✻ Paul Neyron. ✻

Deep, shining Rose, very fresh and pretty. Flowers large, often measuring five inches in diameter. The buds always develop fine, perfect Roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which often attain six to seven feet in a single season. We know of no Rose possessing so many good points to recommend itself as the Paul Neyron. Price, 15c each; large two-year-old plants, 40c each.

NEW HARDY EVER-BLOOMING ROSE

✻ Dinsmore. ✻

We quote the introducer's description: "For years we have been looking for a variety which had all the desirable qualities of a bedding Rose—i. e., one which was of good color, fine form, a profuse bloomer, and which would stand the rigor of our Northern Winters without protection; and we can conscientiously say, that until the 'Dinsmore' was produced there was none, to our knowledge, which combined all these qualities. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all summer long, being even more profuse than most of the tender 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling, scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses." Price, 20 cents each; large two-year-old plants, 40 cents each.

Dinsmore.

●—The New Hardy Variegated Rose—●

Roger Lamberlin.

One of the most remarkable Roses yet offered. The petals are irregular on the edges like a double Petunia; the color is glowing crimson throughout, except the edges of the petals, which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses. The growth is free and vigorous, and the fragrance is delightful, equal to the finest of the hardy Roses. This is a "novelty" of the most striking order. See cut. Price, 25 cents.

Vick's Caprice.

This grand novelty is a true Hybrid Perpetual Rose. We esteem this one of its greatest advantages, as it may be grown to perfection by the amateur equally as well as by the professional florist. The flowers are large, ground color, soft satiny-pink, distinctly striped and dashed with carmine. It is beautiful in the bud form, being quite long and pointed, also showing the stripes and markings to great advantage, making a valuable and desirable article for cutting. Price, 15 cents each; large two-year-old plants, 40 cents each.

HARDY ROSE

General Jacqueminot.

A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetuals, and is without a rival in fragrance and richness of color; as easy of cultivation as many of the more common varieties, and perfectly hardy. Price, 15 cents each; large two-year-old plants, 35 cents.

Our Beautiful New Moss Roses

ESPECIALLY admired for the beautiful Moss covering. A Moss Rose is a strong, vigorous grower, perfectly hardy and therefore justly esteemed as very desirable for out-door culture in open ground. They like rich ground and are much improved in beauty and fragrance by liberal manuring and good cultivation. Being difficult and slow of propagation, the price is higher than for other Roses. Price, except where noted, 20 cents each; six for \$1.00. We have large two-year-old plants for immediate effect, at 35 cents each; three for \$1.00.

Princess Adelaide—Fine, bright carmine; large and vigorous. Much esteemed.

The Wonderful New Climbing Rose, Empress of China.

This is a new Climbing Rose of the greatest excellence. It was brought to this country by a gentleman from Cuba, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until December. Think of it! There is no other Rose like it that will bloom for so long a time. This has been the great objection to Climbing Roses, that they bloom once and then are done. But here we have a Rose that blooms continuously for over seven months of the year. It is simply wonderful. When it first opens the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy, and is a vigorous grower. Don't fail to try this beautiful Rose, as it will please you. Price, 10 cents; two-year plants, 35 cents.

The Famous Single Geranium, ★ **THE WONDER.**

This new Geranium, without doubt the finest that has ever been offered, came from France in a lot of fine sorts, and is supposed to be a sport from the scarlet Geranium, Athlete. It being so intense in color, such a wonderful bloomer and strong grower that it was kept separate and styled "The Wonder," from the fact that every one who saw it pronounced it wonderful. The artist has copied exactly in size an ordinary floret. The flowers are the most intense, dazzling scarlet, and are borne in trusses of enormous size, measuring from eighteen to twenty inches in circumference, with single florets measuring seven inches in circumference. As a pot plant or bedding Geranium it has no equal. Price, 15 cents each; \$1.50 per dozen.

The Marvelous,

BEAUTE POITEVINE.

It is a perfect marvel among Geraniums, and is the best of the new dwarf-grown sorts. It is very dwarf and compact, and of a very branching habit. The flowers are produced in the greatest profusion upon large sized trusses, and the color is like the beautiful Aurora, unique and changeable, some trusses being of a deep rosy-salmon, streaked and veined carmine, with deep magenta color; others with the outer petals almost a pearly white, with carmine color. Price, 10 cents; twelve for \$1.

The Incomparable Single-Flowered Salmon Geranium,

MRS. E. G. HILL.

There has never been a salmon-colored Geranium to equal this, although it has been introduced some four years, and it is rarely offered in wholesale lists, because it is at once picked up by market-growers. For those unacquainted with the variety we would say it is a most distinct and pleasing shade of salmon, with light shading to the center. The finest salmon flowered Geranium to date. Price, 10 cents; twelve for \$1.

The Lovely Double Pink Geranium,

EMILE DE GIRARDIN.

No one who has not seen this lovely pink Geranium as it is grown in the beds and borders of the Northern parks can imagine the beauty that lies in a flower of that color. Of a deep, soft rose, rather than pink, but fresh and bright, the flowers are perfect in form and borne well and clear above the foliage. It stands the sun perfectly, and is, in our opinion, the finest double variety of any color for massing, when a delicate and artistic effect is desired. Price, 10 cents each; twelve for \$1.

The Golden Red Geranium, CALIFORNIA.

Those who have tried such Geraniums as Progressive and Golden Dawn will find this variety far in advance of all other existing kinds of orange-scarlet. It is of a rich, golden orange shade, its large trusses opening freely, the habit being as free and robust as that of any other variety. Price, 10 cents; twelve for \$1.

Beautiful Peach Blossom Geranium, SOUV. DE MIRANDE.

It is entirely distinct from any other variety shown, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round florets, upper petals cream-white with a distinct rosy-pink border, lower petals salmon-rose, streaked with pure white. A most novel color. Price, 10 cents each; twelve for \$1.

Double Scarlet Geranium, FIRE BRAND.

Color dazzling flame-scarlet; fine, prominent truss; flowers large and of great substance; an excellent bedder and pot plant. For planting in masses we have none to equal it. Another thing in its favor, it takes fewer plants because of its sturdy, branching habit, to give effect. Price, 10 cents each; twelve for \$1.

The Great Double Geranium, BRUANT.

The giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant abounds in vigor; foliage strong, striking and of perfect habit. Color of the flower is a bright vermillion-red of most pleasing shade. The flowers are absolutely perfect in shape, color, and make-up; trusses exceptionally large, and borne in immense

Beaute Poitevine.

spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. Price, 10 cents each; three for 25 cents; twelve for 75 cents; one hundred for \$4, by express.

Beautiful Cemetery Geranium, WHITE SWAN.

In the White Swan we have the finest double white Geranium ever introduced, and, unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It is a dwarf, compact-growing variety, with handsome, banded foliage, of a light, healthy green. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless, snowy-white, retaining their pure whiteness even in the heat of Summer. Price, 10 cents; twelve for \$1.

The Charming Double Geranium, PINK BEAUTY.

Is remarkable for its stout, robust growth, and for its immense trusses of bloom. The foliage is very large, and of a light green color, with a band of dark green encircling each leaf. The flowers are borne on bold trusses of enormous size, almost-spherical, and as many as sixty florets have been counted on a single truss. The color is the richest deep pink, shading near the base of the petals to light pink, the base of the upper petals creamy-white. Price, 10 cents; twelve for \$1.

New Golden Orange Geranium, DOUBLE GUINEA.

Golden-orange shade, of the most brilliant hue. The flowers are of the largest size, most perfectly shaped, in large trusses, opening freely at all seasons. The habit and growth is as free and robust as in any other variety. It is well marked in character and distinctness. Price, 10 cents; twelve for \$1.

A Fine New Apricot-Tinted Geranium, M. Lockray.

This new variety has wonderfully large flowers of the semi-double type that is so effective. The color is a peculiar apricot-salmon in center, diverging to a lighter hue, sometimes almost white on the edge. The trusses are of immense size, the individual flowers are very perfect, altogether making one of the best new Geraniums. Price, 15 cents; twelve for \$1.25.

New Orange-Scarlet Geranium, Dr. BLANCHE.

Artists in color who have for the past season seen it in flower declare it to be a rich, golden-orange of the most brilliant hue. The flowers are of the largest size, perfectly shaped, in large trusses, opening freely at all seasons. It is well marked in character and distinctness. Price, 15 cents; twelve for \$1.

The Great "Monarch" Set of Ever-Blooming Carnation Pinks

AS ILLUSTRATED ABOVE.

1. **W. A. Scott**—This is in style of growth between the tall growing Richmond and the more dwarf Spartan. Growth vigorous, very free blooming from early to late; foliage not quite as heavy as that of Richmond. Flowers large and non-bursting, of a deep Grace Wilder pink. Price, 15 cents each.

2. **Royalty**—Another grand Carnation, with enormous sized flowers, often measuring three inches in diameter, and at the same time being one of the freest blooming Carnations we have ever seen. Ground color of flower purest white, very handsomely penciled with the richest royal purple. Price, 15c.

3. **Jubilee**—Is the grandest red Carnation ever brought out. Color intense bright scarlet of the richest shade. Indeed, there is no flower in the whole floral kingdom that has a brighter scarlet than Jubilee. It has taken first premiums over all reds at the Boston Carnation Show, February, 1895; certificate and first prize at Indianapolis; also at Chicago; certificate at Cincinnati. As many as twenty-five open flowers have been counted on a single plant at one time. The flowers are of the largest size, and when in full bloom resemble a large bouquet of dazzling red. Price, 15 cents each.

4. **Golden Fleece**—This is a pure yellow Carnation, of strong growth and very profuse flowering. There is little or no stripe at all in it, being a straight out-and-out deep, rich golden-yellow and almost without any other color whatever, under any circumstances. The florets are large and double as in Buttercup, and taken all in all it is the very best yellow Carnation out. Price, 15 cents each.

5. **Armazindy**—Color snow-white, very lightly penciled scarlet; can almost be used as a white; stem very stiff, slender, and 2 to 3 feet high; the flower is large and never bursts. One of the most profuse bloomers in the whole family, and surpassed by no variety in beauty and in good qualities. We do not know of a single fault, and it certainly "takes" with flower buyers, being always in demand. We recommend this variety above all others to the general public, as it can be used on all occasions when fine cut flowers are needed. Of the easiest management. Price, 15 cents each.

Mrs. Harrison—Flowers of the finest white, occasionally a fleck of purple, of large size, two and one-half to three inches, very full and of good substance, lasting, if well grown, long after being cut. Price, 10 cents.

Portia—Brilliant scarlet. An exceptionally bright color in a Carnation. This is not a red, but is like that rich, glowing shade of scarlet so often found among Geraniums. Growth very vigorous and strong. Foliage large, and deep green. Price, 10 cents.

Star Light—A very pretty canary-yellow Carnation, a sport from Hinze's White, similar in foliage and form of flower; its charming yellow tint with its short growing habit make it very desirable. Price, 10 cents.

Winthrop, Maine, July 2, 1897.

Gentlemen: The Carnations ordered of you have arrived, looking very nice. Thanks for extras.

MRS. N. M. B.

THE SENSATIONAL Chrysanthemum Set.

Price, 15 cents each,
or the set of six for
75 cents.

New Chrysanthemum, . . .

. . . FISHER'S TORCH.

A fine new Japanese variety. The flowers are of massive size, reflexed, with broad, stiff petals, color deep, rich, velvety-crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingfordii, but it is much heavier and darker. Leaves grow close up to the flowers, which gives the plant an elegant appearance. It is a fine, strong, clear grower. Price, 15 cents each.

The Mammoth Chrysanthemum,

MRS. M. R. PARKER, Jr.

From Ada Spaulding and Ivory, combining all the good qualities of its parents. Dwarf, robust habit, with unusually strong stem and fine foliage. Flowers seven and a half to eight and a half inches in diameter, with broad cupping and incurving petals, the inner surfaces of which are a rich deep pink, reverse light silvery shade, forming a bright contrast. The first large early pink in market; in fact, the first large flowering variety of any color. Awarded certificate at New York by the Chrysanthemum Society of America. Price, 15 cents each.

The Prince of Red Chrysanthemums,

GEORGE W. CHILDS.

No Chrysanthemum created such a sensation as did this, when exhibited at Orange, N. J., and Philadelphia last year. The flowers are of massive size, reflexed, with broad, stiff petals; color deep, rich, velvety-crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingfordii, but it is much heavier and darker. They grow close up to the flowers, which gives the plant an elegant appearance. It is a fine, strong, clear grower. It was awarded the J. R. Pitcher, Esq., gold medal at Orange, N. J.; the silver medal by Pennsylvania Horticultural Society; the medal of excellence, American Institute. It was exhibited at Indianapolis last year over eight inches in diameter. No Chrysanthemum can compare with it for color, size of flower and growth. Price, 15 cents each.

The Pink of Pinks, . . .

. . . MRS. PERRIN.

Mrs. Perrin, offered to the public for the first time, is the nearest approach to the true pink so long desired. It has slender, stiff stems; a short neck; ornamental foliage. The flower is of globular form, incurved, full, and with a finish as soft as satin. Color rose-pink within, glistening pink without. Recognized wherever shown as the ideal variety in this color. Received first prize wherever shown as best pink; at Boston, Philadelphia and Chicago received the most flattering notices. Everyone who has seen it is loud in praise of the color. A wonderfully clear bright pink, quite free from magenta. The flower is incurving, but loosely built. Price, 15 cents each.

EUG. DAILLEDOUZE.

This beautiful variety captivates all who see it at the different exhibitions. There is nothing brighter or clearer among yellows. The center of the flower is folded close, the outer petals are broad and incurving, and of great substance. It is full to the last degree, of great depth, and of the most perfect form. We consider this the

crowning glory in yellow Chrysanthemums. It is the winner of twenty first premiums and gold medals. Price, 15c each.

Purest and Best Early White,

MRS. HENRY ROBINSON.

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense incurving, broad-channeled petals of great substance and the purest white—can be used a few days earlier, but it is a sin to cut it until the center petals have begun to develop; from a flat incurved form it gradually changes into a perfect ball of snow, sixteen to eighteen inches in circumference. Foliage as handsome as that of Mrs. Jerome Jones; a variety of the easiest management. We do not think that it possesses a single fault. Winner of twenty-six first prizes. Price, 15 cents each.

McGREGOR BROS.:

Dear Sirs—I received Chrysanthemums in fine order. Thanks for promptness. Yours truly,

McGREGOR BROS.:

THREE

Typical Chrysanthemums.

AS ILLUSTRATED ON THIS PAGE.

Major Bonnaillon—Soft, clear yellow, full in the center, 8 inches in diameter and nearly as deep. In perfect form and finish, habit dwarf, keeping qualities excellent. It is entirely distinct in color and form from Eugene Dailedouze. It was awarded a World's Fair Medal with the highest recommendation from the judges; has won ten first prizes. Price, 15 cents.

Mutual Friend—An exceedingly attractive, bold, massive flower, very large incurved, the outer petals drooping, forming almost a perfect flower of the purest white, with extra good stem and fine handsome foliage within four inches of the flower. A grand flower in every way. Certificates of merit, New York and Philadelphia shows. Price, 15 cents each.

Vivian Morel—A mammoth variety, with long, loosely arranged petals (see illustration) of a most beautiful shade of pink; a strong, sturdy grower, with deep green foliage; quite very distinct from any other variety in common—altogether these three varieties make a distinct collection of themselves. Price, 15 cents each.

SPECIAL OFFER—These three varieties as illustrated for 30 cents.

Six Famous Prize Winners

Helen Bloodgood—A striking variety. Unquestionably the most meritorious pink introduced to commerce, being the first true clear pink without a trace or shading of purple or magenta. In form a globe-shaped Japanese, of largest size, with strong and robust habit. Certificate at New York, and this season by the Chrysanthemum Society of America at New York and Philadelphia. Price, 15 cents each.

Miss Gladys Spaulding—One of the best whites extant. A grand spherical Chinese; an improvement on Mrs. R. Craig, both in size and texture of petals. An exceedingly well-built flower, a charming variety, with perfect habit and unusually stiff stem. Awarded Chrysanthemum Society of America's certificate at New York and Philadelphia. Price, 15c each.

Miss M. M. Johnson—Grows scant 3 feet in height, and perfects three fine flowers to the plant; beautiful foliage, a stiff stem, and deep golden color, together with its fine form and great depth, mark it as a leader among earlies. The flowers were in fine condition for cutting on October 10th, though grown on a low north bed, as we had failed to mark it dwarf the previous year. It is a first-rate shipper. Received certificate at Chicago and Cincinnati before the judges, on October 20, 1894. Price, 15 cents each.

The Queen—This novelty is undoubtedly the finest white variety up to date. It excels all in purity, extra large in size, of beautiful half globular form with broad incurved, shapely petals of great substance; growth, robust with large, smooth, heavy, deep green foliage, carries flowers erect on stiff stem; a grand show flower, and promises to be a very profitable sort for commercial purposes. Opens October 25th. Winner of the prize at the Madison Square Flower Show for best White. Price, 15 cents each.

Mrs. Jerome Jones—This is a fancy cut-flower variety which completely captivated us. It is almost of globular form, of the finest silky finish, and destined to become a standard sort for cutting. The outer petals are a delicate lavender, forming a decided band of color, the inner petals are clear lemon. A plant in bloom has a most beautiful, airy appearance. Price, 15 cents each.

Golden Wedding—This is undoubtedly the grandest golden-yellow variety ever introduced and is the marvel of the period. Nothing can exceed the richness of its color; it is unrivaled in this respect. It is a remarkably vigorous grower and has such strength of stem that it carries its great globular flowers erect, giving it a bold majestic appearance. The form of Golden Wedding is unique; the outer petals droop downward in picturesque irregularity, the center of the flowers is built high, with broad petals irregularly overlaid, so that although the flowers are so large they are not heavy, solid-looking like many others. Price, 15 cents each.

SPECIAL OFFER—These six famous prize Chrysanthemums for 75 cents.

Ostrich Plume Chrysanthemums.

Louis Boehmer.

Charming New Yellow Ostrich Plume, Perle of Lyonaise—Bright clear golden-yellow, somewhat plumed, quite full, one of the very finest; of medium size; beautiful globular form; new. Price, 15 cents each.

L'Enfant—(Des d'Mondes.) Pure white. This grand white sport from L. Boehmer was well received, having many admirers at the shows. Like the parent, is a strong grower of good habit, and is considered the best white of the hairy type, and well deserves a prominent place in any set of this peculiar style of the Chrysanthemum. Price, 15 cents each.

Louis Boehmer—(Pink Ostrich Plume.) The "Louis Boehmer" has the same wonderful hair-like growth or excrecence that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals. Price, 10 cents each.

Mrs. Alpheus Hardy—(Ostrich Plume.) A novelty that has even surpassed its promise; immense, perfectly incurved flower, with broad petals showing a plush-like surface, with odd glistening sheen. The cut blooms seen at most of the shows were extremely beautiful. Price, 10 cents each.

W. A. Manda—The flowers are very large, of a clear golden-yellow—the hairy growth being much more fully developed than in the older varieties of this type. It is a much better pot or specimen plant, having a number of flowers on the smallest plants. The plant is of vigorous growth, and the flowers are borne upright on a stout stem. Price, 10 cents each.

Master of Ostrich Plumes—This beautiful new variety is of deep maroon, shaded and marked in scarlet; a decided advance in color and form that adds much to this strange type of flower. Price, 15 cents each.

SPECIAL OFFER—The full set of Ostrich Plume Chrysanthemums for 50 cents.

A Select List of the Newer Chrysanthemums.

Price, 8 cents each, unless otherwise noted.

Chas. Davis—Color is a terra cotta or old rose, shading to clear yellow at the center. Like V. Morel, it undergoes a great change in color as it matures, and is often found a clear yellow.

Cullingfordii—Reflexed; exceedingly brilliant crimson, richly shaded with scarlet. Florets are of a beautiful, rich velvety texture. One of the very distinct and noted sorts.

Challenge—A large variety, being in full perfection November 25th to 30th. The flower is a perfect globe of gold which finally shows a pointed center. The color is bright yellow, the stem is very strong, foliage extra good.

E. G. Hill—Immense bloom of brightest golden-yellow; full and very double; lower petals sometimes deeply shaded bright carmine.

Gloriosum—Light lemon color, with immense flowers, having narrow petals gracefully curved and twisted; quite early and one of the best.

Glory of the Pacific—This fine variety will rank among pink sorts as Bergmann does among whites. It is of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage.

Ivory—Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its Dahlia-like petals and absolute purity of color.

Joseph H. White—A very large white variety, with upright petals, forming a nicely rounded flower of great substance. Strong grower, with stiff stems.

J. A. Lager—Reflexed, of great depth. Petals long and twisted, open at the end, of a beautiful pure yellow; one of the most distinct sorts.

Kioto—Incurved Japanese variety. The color is deep yellow, with a peculiar waxy lustre; petals incurved and twisted; a free bloomer.

L. Canning—A most exquisite white, absolutely pure. The flower is quite regular in form, very large and flat, the length of petals graduating to the center.

Lillian B. Bird—This beautiful and unique variety is of an exquisite shrimp pink in color, producing flowers which often measures ten inches in diameter; large tubular petals of perfect form when fully open, being an immense half globe. This variety has taken prizes wherever exhibited.

Marguerite Jeffords—A fine spherical flower of bright amber color, of most rich and pleasing shade, one of the notabilities of the year, having secured the Whilldin prize at Philadelphia.

Maude Dean—An immense pink variety; finely incurved; petals broad, shell-shaped. One of the largest flowers exhibited in the Fall shows. Almost a pure shell-pink. Received silver medal at Philadelphia, and awarded certificates of merit at New York and Philadelphia.

Miss Kate Brown—A new, early October flowering Chrysanthemum of strong growth and luxuriant foliage; leaves thick and leathery; flowers extra large, reflexed, with petals slightly twisted; color pure snowy-white. When the flower is fully opened it shows a bright yellow disk, and resembles an immense daisy.

Minnie Wanamaker—Pure snow-white, incurved and perfectly double, with a breadth of petal and grandeur of build that is only found in the best varieties. The flowers are exceptionally large, produced on long, stiff stems, with large and handsome foliage. Secured the silver medal at Philadelphia.

Mrs. Maria Simpson—Color soft chrome-yellow; a fine example of the broad petaled, incurving Japanese type, showing no center; very large; a fine grower, with stiff stems. Silver medal at Philadelphia; certificate at Indianapolis.

Mrs. I. C. Price—A lovely yellow, bright as gold; bloom very large; petals long and slender, arranged in a whorl while still incurved, not like any other yellow.

Mrs. J. G. Whilldin—A handsome yellow variety of light tint, fine, large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties. Whole large greenhouses are devoted to this variety in the East for cut flower purposes.

Miss Mary Weightman—A magnificent and very distinct chrome-yellow; in form loose and feathery, but very large and full. Flowers ten inches across; early; one of the best commercial and exhibition sorts.

Mme. F. Bergmann—The finest of all the early whites; very large and full, and of the purest white, with creamy center; a strong, sturdy habit; fine foliage. The most popular white variety with florists for early forcing.

Mrs. E. D. Adams—Flower very large; petals of medium width, very long, twisted, the outer ones swirled, as if the flower had been turned swiftly on its stem; color pure white.

Mrs. E. G. Hill—One of the earliest of all the large flowering sorts. Flowers very large, seven to eight inches across; full to the center. A grand incurved sphere when fully expanded. Color delicate pearl pink; extra fine.

Niveus—A splendid snow-white variety. Center irregularly incurving with outer petals reflexing nearly to the stem. Constitution robust, foliage large and abundant, while the keeping qualities of the flowers are unsurpassed.

Pink Ivory—(Miss A. L. Dalskov.) A sport from Ivory, the most popular of all white Chrysanthemums; it is identical with Ivory in every respect except color, which is a beautiful shell-pink. Price, 15 cents each.

Pitcher and Manda—Reflexed Japanese, not deep, but solid and of large diameter; the outer five or six rows are creamy-white and of Dahlia-like form; the center is bright yellow. The two colors being sharply defined.

Puritan—This is undoubtedly one of the choicest as well as largest Chrysanthemums grown—as large as Mrs. F. Thompson; a beautiful silvery-white, turning to pure white.

President Harrison—An immense cupped flower; outside petals salmon-red; center deep Indian red. Enormous, free and distinct.

Violet Rose—A grand variety. Exceedingly free, of perfect form. A beauty combination of violet and rose in color.

It is of very heavy texture and a deep olive-green. Price, 20 cents each.

New Semi-double Begonia, GILSONI

Large leaved, smooth and upright growing. The leaf is sharp pointed and regularly toothed, of long, triangular form; very elegant. One of our greatest favorites, being very easy to grow. Price, 20 cts. each.

New Begonia, DIADEMA.

This is a distinct and comparatively new variety, the leaf is large and deeply lobed, giving it a very tropical appearance. Color of leaf a rich, olive-green, handsomely spotted with silver. Its silvery dots and veins, as well as the fine habit of its growth, make one of the most desirable plants. Price, 20 cents each.

New Begonia, CUPREA.

A seedling from Metallica, with beautiful velvety leaves of dark green. A strong, rapid grower, which is bound to become popular. Price, 20 cents each.

Manicata Aurea.

New Begonia, THURSTONI.

One of the most beautiful variegated plants within our knowledge. The plain green Begonia Manicata is a very beautiful variety, clean and glossy, bearing the veil of pink bloom above. But when we find Manicata beautifully blotched with cream color, often pure snow-white, deepening into canary, no other plant that we know carries such bold markings, nor in so pleasing combination of colors. Every one who sees it admires it the most of any foliage plant we grow. The cut is a correct representation of the plant. Price, 20 cents each.

Tuberous Rooted Begonias.

REX BEGONIAS.

This class of Begonias are grown exclusively for the great beauty of their foliage, which is very large, and beautifully variegated a peculiar silvery-metallic gloss. They are used for pot plants or warden cases. They dislike our dry, bright sunshine, and thrive best in a rather shady, warm and moist situation. We grow several of the most beautiful and desirable Rex Begonias in cultivation. Price, all varieties, 15 cents each; four distinct varieties for 50 cents.

TUBEROUS ROOTED BEGONIAS.

(See Illustration center of this page.)

These are among the very handsomest of our Summer blooming plants, flowering throughout the season. For a time it was generally supposed that these could not be grown in the open air with success, but extensive plantings of them in various sections of the country have demonstrated their adaptability for this purpose. Nothing can exceed the brilliancy of their colors, the delicacy of their tints, the richness of their waxy flowers, the gorgeousness of their effect in masses, of their graceful appearance in beds or borders. From the time the first blossom appears until all growth is stopped by frost, they are never out of bloom, and such blooms, great waxy flowers from three to five inches across, borne in such profusion that the rich glossy-green foliage is almost hidden under the wealth of blossoms. A bunch of these on the table in a room will remain perfect a long time and brighten it up as no other flowers will. They should be planted about one foot apart each way, and on the approach of cold weather they should be taken up and the bulbs stored away in a warm place until the Spring, when they may be started in pots before planting in the garden. The double varieties being so much harder to grow, we do not offer them. We can supply them in four distinct colors—scarlet, yellow, pink and white. Price, 15 cents each; two for 25 cents, or the four colors for 40 cents.

Asparagus Plumosus Nanus.

THE SCARLET MEXICAN LILY

Grown in Water.

The Gorgeous Scarlet Mexican Lily, . . .

✿ ✿ ✿ *Sprekelia Formosissima*.

Any description would be inadequate to give a correct idea of the superb brilliancy of the flowers of this Lily. They are of a dark velvety-scarlet, shading to maroon and having a satiny-white stripe in the center of each petal. In form more graceful than any Lily we know of. They must be seen to get a proper idea of their gorgeous magnificence. Plant the bulbs either in sand and pebbles covered with water, like a Sacred Lily, or in pots filled with good rich soil. If planted in the same manner as the Chinese Sacred Lily, the blooms will appear much sooner, but will not last so long as when planted in earth. Try two or three of these bulbs planted together and a gorgeous display is assured. Price, 15 cents each; two for 25 cents; three for 35 cents.

CACTUS EPIPHYLLUM.

(The Lobster Cactus.)

This is one of the easiest plants to grow of the species. It will thrive anywhere, in the sun or out of it. Grows naturally into very handsomely-shaped plants, which, in December, are loaded with beautiful pink flowers. Price, 20 cents each.

CINNAMON VINE.

A very pretty climbing plant. Perfectly hardy, the stem dying down every Autumn, but growing again so rapidly in the Spring as to completely cover any trellis or arbor very early in the season. It is as easily cultivated as the Madeira Vine, and is produced from tubers that will make from ten to twelve feet of vine, having beautiful, heart-shaped leaves, bright green, peculiar foliage, and clusters of delicate white flowers, sending forth a delicious cinnamon odor. Price, 10 cents each.

AMARYLLIS JOHNSONII.

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson with a delicate white feather in each petal. It is most superb. Price, 40 cents each.

✿ *Agapanthus Umbellatus*. ✿

(Blue Lily of the Nile.)

This is a splendid ornamental plant, bearing large clusters of bright blue flowers on long flower stalks and lasting a long time in bloom. There is no finer plant than this for outdoor decoration, planted in large pots or tubs on the lawn, terrace or piazza. It does well in the house or greenhouse in Winter, requiring slight protection. It is a rapid grower, and increases in size and beauty every year; the chief point in its cultivation is to divide the plant before the pots or tubs become overcrowded with roots. With the ordinary kind of care, it is a plant that will last forever. Nice little plants, 10 cents; strong plants, that will bloom in a short time, 25 cents.

Blue Lily of the Nile.

Price, 10 cents each.

Souv. de Bonn—This is entirely different from anything we have had before in the way of variegated Abutilons. It is a strong, upright grower, with large, bright green foliage, distinctly edged with a broad band of creamy-white and yellow. Flowers very large on stems eight to nine inches in length. Color bright orange-red; very effective with its beautiful variegated foliage. Price, 15 cents each.

SPECIAL OFFER—The Three New Abutilons for 30 cents.

THE GREAT CEMETERY PLANT,
THE PURE WHITE ACHILLEA,

"THE PEARL."

We take much pleasure in calling special attention to this new plant, as it is one of the most beautiful and useful. It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds and even thousands of flowers the first Summer, but when established the second year frequently have more than five hundred perfect flowers on the plant at the same time. It commences to bloom early in July, is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decoration. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its great profusion of snow-white flowers nearly the whole Summer. Price, 10 cents each; three for 25 cents; twelve for 75 cents.

OUR BEAUTIFUL NEW

Bedding Coleus.

The Coleus will give more pleasure at less cost than any other plant. Their varied tints of crimson, gold, bronze, and green, and richly blotched, veined or margined, produce a brilliancy of coloring unequalled. The Coleus is the gardener's paint box, bearing all the colors on its leaves, ready to be disposed in whatever ornate and parti-colored designs we may choose to display upon our lawns and parterres. In this field there is the greatest opportunity for an interesting exercise of the ornamental taste possessed by all flower lovers. The style is very appropriately called "carpet gardening." Whoever has been in our large city parks will never forget the little ornamental bed curving and quaint designs and mingling arabesques of orange, blue, canary-yellow, scarlet, silver-white, claret, pale green, purplish-black and olive—that look like vari-colored rugs spread at short intervals on the smooth lawn. Sometimes one large circular bed is filled with maroon-leaved Coleus with very striking effect. Plants should be set about a foot apart, so that when the size of the bed is ascertained it is easy to figure how many plants are needed of each kind in a row. We have a collection of two hundred kinds of the most distinct sorts out. Leave the selection of favorites to us, as it is hard to describe the various tints. Price, 5 cents each; twenty distinct varieties for \$1 by mail, prepaid; by express, thirty for \$1. All good bedders, standing the hot sun without losing their colors. Price of Coleus by the hundred, when sent by express, \$3.00.

New Coleus, Queen of the West— This variety is an improvement on the beautiful new Coleus, Mrs. F. Sander. Large leaf and slightly serrated; outer band of bright oxide-green, with margin of bright yellow and center wedge of creamy-white. The whole covered with blotches and spots of bright carmine and deep maroon. Price, 10 cents each; \$1.00 per dozen.

New Coleus, Beckwith's Gem— The leaves are large, of heavy texture and with finely scalloped edges. It is the finest bright colored bedder yet offered. The coloring is such that it baffles a true description. The center is of the darkest velvety-maroon, bordered by a fiery-red, the edge is green at the base, changing to cream-yellow at the point of the leaf, marked and spotted with fine red and maroon. Price, 10 cents each; \$1.00 per dozen.

The Beautiful New Yellow Canna,

ELDORADO.

Without doubt this is the very best yellow Canna now on the market, being of the highest quality in every respect. The flowers of the largest size, head full and borne well erect above the foliage, while the habit is more dwarf and compact than Madame Crozy. The color is a rich, pure, golden-yellow, speckled with a red so light that the general effect, even at a very short distance, is that of a pure golden-yellow. In this we have an ideal yellow Canna, the flowers of full size, and drooping from the spike as soon as faded, leaving the bed always a mass of brilliant color, and a fit companion of the grand scarlet, red and crimson varieties already introduced. Price, 20 cents each.

Orchid Flow-
ering

Cannas,

Austria and Italia.

Canna Italia.

The Great Orchid Flowering Canna,

ITALIA

This giant flowered variety is from the same source as Austria, and by some would be considered the more showy of the two. The plant is of the same habit of growth with large deep green foliage. The flower, it will be seen, consists of five petals, but frequently there are six in each flower. The growth is stately, in ordinary seasons reaching six feet, broad and massive, beauty and strength combined, a wealth of graceful foliage and gorgeous flowers. The three upper petals are golden yellow with a large blotch of orange scarlet in center of each, the center and lower petals scarlet, with a narrow edge of golden yellow. Our illustration can give but a faint idea of its magnificence. Price, 30c.

SPECIAL OFFER.
These Two Superb Cannas for
50 CENTS.

It gives us great pleasure to bring before you these two magnificent Cannas, Italia and Austria. They are the finest of a new type; in fact they are a new race of Cannas, and are as much an improvement over the "Crozy" Cannas as they were to previous varieties. Italia, no words can describe its rich oriental appearance. Our illustration can only give a faint idea of its magnificence, and nothing can exceed Austria in its superb coloring of rich golden yellow.

The Wonderful Lily-Flowered Golden Canna,

AUSTRIA

The flowers of this wonderful Canna when fully outstretched, measure over six inches across, the petals are very broad with slightly reflexed edges resembling very closely some of the Orchid family. The plant is remarkable for its sturdy, rank growth, forming massive clumps six to seven feet high, covered from the ground up with large deep green Musa-like foliage. Plants set out early in the season will, before midsummer, form clumps with twenty to thirty strong stems, each stem surmounted by tall spikes of golden yellow flowers standing upright like immense lilies. It blooms continuously from early summer until 'checked by frosts in fall; lifted before frost and taken into the house will continue to bloom all winter. Price, 30 cents,

San Diego, Cal., May 6, 1897.

Dear Sirs: The package of Carnations arrived this morning in splendid condition; just as fresh as when first put in the box.

THE CHARMINGLY MARKED NEW CANNA,

QUEEN CHARLOTTE.

The sensation of the year in new plants; this is indeed a queen among Cannas and the finest novelty of the season, entirely distinct from any other variety offered. Our illustration clearly shows the shape and marking of the flowers, which are very large, with broad, rounded petals, slightly recurved; they are borne in immense heads, well above the foliage, and are most striking in color. A bright orange-scarlet, deeply edged with bright canary-yellow. The plant is of dwarf habit, a sturdy, compact grower, with deep green Musa-like foliage. A perpetual bloomer and one of the finest new decorative plants that has been offered in years. Price, 15c each.

THE FINE CRIMSON
FOLIAGED NEW CANNA,**ADMIRAL AVELLAN.**

We consider this the best of all the dark leaved varieties. The flowers, while not as large as some of the latest introductions, are of good size, with heavy strong petals which open out evenly, forming a clean pretty flower; these are arranged sufficiently far apart on the stems to show up each individual flower. It is of a rich orange-scarlet color overlaid with salmon in such a manner as to give the whole a peculiarly rich luminous appearance. The habit of the plant we consider ahead of all the dark-foliage varieties, being erect, growing about 5 feet high and always forming fine symmetrical plants. There is a clean appearance about this variety difficult to describe, different from all other dark-foliage sorts. Price, 20 cents each.

Admiral Courbet—Plant very vigorous; foliage, green and produced in profusion. Flowers very large; beautiful citron-yellow, striped with flame. Price, 15 cents each.

Alphonse Bouvier—This is the grandest of all Cannas for outdoor bedding. It is very luxuriant grower in good ground. It begins to bloom very early and is one continuous mass of crimson the entire season. The tips of the shoots are surmounted by immense clusters of bright crimson flowers of the very largest size, and nothing can excel their brilliancy. Price, 15 cents each.

Duchesse De Mortemarte—A vigorous grower, with large leaves, throwing up numerous flower stalks; flowers large and round, composed of large, round petals; color, yellow, very bright, lightly dotted carmine. Extremely fine. Price, 15 cents each.

Emile Leclerc—A strong grower: height, about three feet; foliage green, numerous flower stalks; of medium height; flower, golden-yellow, mottled and spotted crimson and scarlet. Price, 15 cents each.

Egandale—One of the finest dark-leaved Cannas for bedding that has yet come under our notice. The foliage is good, habit sturdy. Flowers of good size, borne in compact heads, and in such profusion that a bed of them is a perfect mass of color unequalled by any other sort. The color is a deep currant-red, of a peculiar and very pleasing shade, and different from any other. Price, 15 cents each.

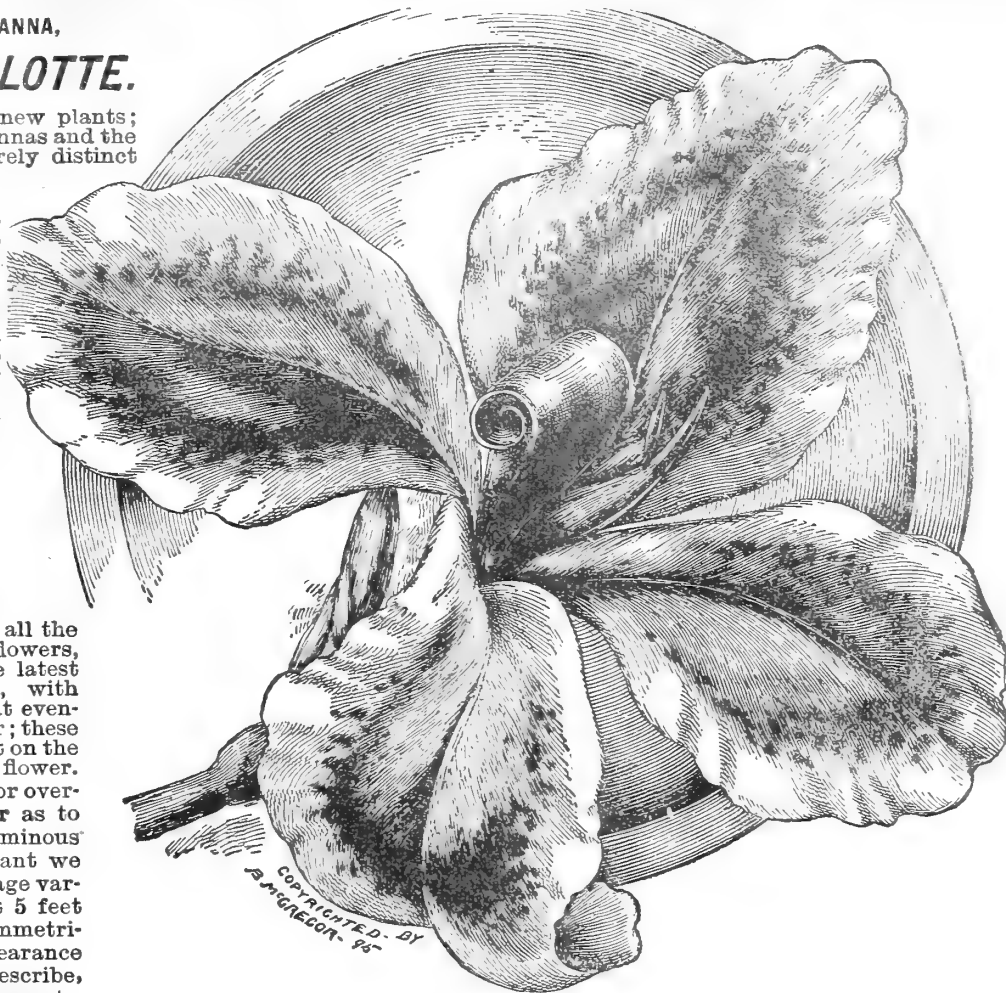

Miss Sarah Hill—Very dwarf, handsome light green foliage, numerous, strong, compact flower stalks, flowers large, petals well rounded, superb amaranth-carmine. Price, 15 cents each.

Paul Marquard—The individual flowers are large, and the flower spike very large, each flower standing out separately by itself. The flower is as fine as the finest orchid. The color is very hard to describe, to give any adequate idea of how beautiful a shade it is. It might be described as a bright salmon, with a carmine tint. Price, 15 cents each.

Souv. de Asa Gray—Plant very vigorous; foliage green and produced in profusion. Flowers very large; beautiful citron-yellow, striped with flame. Price, 15 cents each.

Statutaire Fulconis—As fine a variety in its color of soft, bright, cardinal-red, as is Madame Crozy, among the orange-scarlets; the truss is enormous, composed of quantities of flowers; spikes freely produced; a magnificent grower; produces a mass of brilliant red. Price, 15 cents each.

The Gilt-edged Canna, Madame Crozy—Undoubtedly the grandest of all varieties. The color is a brilliant vermilion-scarlet, bordered with deep golden-yellow; the flowers are borne in great clusters, and in such profusion that they crown the plant with a blaze of glowing color. The foliage is vivid green, broad and massive; the habit of the plant is compact and vigorous, its natural height being rarely more than four feet, but the flowers form when it is scarcely a foot high, and continue coming on the plant until frost. Price, 15 cents each.

Queen Charlotte.

THE BEAUTIFUL NEW SPOTTED CANNA,

FLORENCE VAUGHAN.

Conceded by all who have seen it to be the finest yellow spotted Canna. Flowers very large, of the most perfect form with broad, overlapping petals, nicely rounded at the ends. Color brilliant yellow, spotted with bright red. A strong, robust grower, and flowers very freely. Price, 20 cents each.

Charles Henderson—Glowing crimson color, but of dwarf habit, growing about three feet in height and bearing its immense, compact heads of bloom erect, and well above the foliage. The form of the flowers is very fine indeed, well opened and of good substance, standing the sun well. It is as good a bedder as Bouvier, and is also adapted to pot culture by its dwarf habit; in fact there is hardly its equal to be found for this purpose. Price, 20 cents each.

The Fine Dark-Leaved Canna, President Carnot—One of the best of the dark-leaved varieties and a decided advancement in this section. The flowers are of good size, with heavy strong petals which open out evenly, forming a clear pretty flower. Color rich orange-scarlet, overlaid with salmon, giving the whole flower a rich luminous appearance. The habit of the plant is excellent, growing about five feet and always forming a fine symmetrical plant. Price, 15 cents each.

SPECIAL OFFER.

Dracaena Indivisa.

Dracaena Indivisa—One of the most popular plants for house decorations or for the center of lawn vases. As a single specimen plant for a jardiner in a hall or drawing room it has no equal. The leaves are of several shades of green, with delicate stripings of yellow and red, which become marked as the plant grows older. It grows rapidly, is adapted to the close atmosphere of the house, and is very inexpensive. We offer two sizes of this desirable plant. Nice plants, 10 cents each; large, handsome plants, 25 cents each.

This beautiful plant well deserves the great popularity it has gained in the past two years. Handsome plants, 25c.

Glechoma Hederacea—(Variegated Ground Ivy.) The foliage of this charming novelty is a bright green, marked with pure white, and has a refreshing fragrance similar to mint. Price, 10 cents each.

Glechoma Hederacea.

Cyclamen.

CYCLAMEN OR PERSIAN VIOLET—NEW IMPROVED.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mould and silver sand. Put in pots three times the diameter of the bulb in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cool weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. Price, 10 cents each; large strong plants, 25 cents each.

THE MAGNIFICENT DECORATIVE HOUSE PLANT, Grevillea Robusta, or the Australian Silk Tree.

A magnificent plant for decorative purposes, of rapid, easy growth, fully cut foliage, rivaling a rare fern. The young growing leaves are light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it attains magnificent proportions and produces an abundance of bright, orange-colored flowers. We offer two sizes of this beautiful plant. Nice plants, 10 cents; a large size at 25 cents.

The Mammoth Black Calla,
The Great
DRAGON ARUM.

This plant has the honor of producing the largest flower of any plant that is hardy in this country. They are simply enormous. The leaf stems and flower stalk are all spotted with purple like an adder, and upon the top of the latter opens a flower of gigantic size and curious color. On the outside it is of a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is of a glossy, purple-black color. As will be seen from the cut, the plant resembles a Palm in general appearance. Price, good bulbs, 20 cents each; extra large bulbs, 40 cents each; three for \$1.

New Pink
Japanese Spider Lily.

The White Spider Lily pleases everybody so well after being brought to their notice that this bright colored variety cannot fail to create a great sensation and become immensely popular. A clump of bulbs produces a large number of spikes of the most delicate flowers, varying their colors from a pinkish-salmon to pink, while many sorts produce flowers of a bright vermillion and a deep scarlet. The petals are beautifully undulated, and by an artificial light they sparkle like jewels. The bulbs are not as large as the white variety. Price, 20 cents each; three for 50 cents.

Dwarf Calla, The Gem.

New Ever-Blooming

Dwarf Calla,

THE GEM.

Having given it a fair trial with the ordinary variety known as the Calla Lily, the only objection to the old variety is that it sometimes grows tall and scraggy; but the "Gem" is of strong and dwarf habit. The foliage is of a lustrous dark green, is produced in great abundance. Its flowers are produced in the greatest profusion, being literally an ever-bloomer; it will bloom freely all Summer out in the open ground; in September it can be lifted and potted and will continue blooming all Winter. Price, 15 cents each; large plants, 25 cents.

Spotted Calla.

The New Hardy
WHITE SPIDER LILY.

This grand new Spider Lily has the advantage of being perfectly hardy, and when left undisturbed a few years forms large imposing clumps that are a mass of clustered heads of pure white, fragrant flowers. The flowers have a peculiar and striking beauty, which must be seen to be appreciated. The flowers are borne in large clusters, are of waxy whiteness and unsurpassed fragrance. More beautiful than most of the high-priced Lilies. An extra choice garden flower which we cannot too strongly recommend. Also a fine pot plant. CROWN OF THORNS—Euphorbia Splendens.

A curious plant, with thick, fleshy, twining stems, which are covered with stout, sharp spines nearly an inch long. There is a tradition that this plant furnished the material for the "Crown of Thorns" used in the divine tragedy. The foliage is bright green and the flowers are a beautiful coral-pink, very pretty when in bloom. Price, 15 cents each.

CLERODENDRON BALFOURI.

It is a vigorous, rapid and healthy grower, and produces an abundance of blooms, which are bright crimson, surrounded by pearly-white petals, producing a striking contrast against the dark green foliage. It can be used for a fine specimen pot plant, and can be grown to fine form by cutting off the ends of the growing shoots. Price, 15 cents each.

LOTUS PELYOORENSIS,*Coral Gem.*

This charming plant is so well thought of abroad that a prominent horticultural journal color-plated it. "The Garden" says of it: "Its cylinder branching habit is most striking, and the silvery foliage even more so. Without its flowers it might almost be described as a Silvery Asparagus." But the bright coral-red flowers, measuring two inches in length, are really beautiful, greatly reminding one of the rare and beautiful Clianthus, so difficult to grow, while this gem is of the easiest possible management. Its drooping habit also makes it useful for hanging baskets. It is nearly hardy. Price, 15 cents each; two for 25 cents.

FEVERFEW—Little Gem.

The great value of the old Dwarf Feverfew for cut flowers during the Summer, Fall and Winter is well known to florists and others. This variety surpasses it in every way. It is very dwarf, attaining a height of from 12 to 18 inches. The flowers are larger, of more perfect form and of the purest white. Price, 10 cents each; three for 25 cents.

The Hardy Chinese MATRIMONY VINE.

THE old-fashioned Matrimony Vine was a general favorite more than fifty years ago, but in beauty of flower, fruit and foliage it cannot compare with this superb variety. It is a most vigorous, hardy climbing plant when trained to an arbor, fastened to a fence, attached to a tree, the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. The contrast between the glossy, dark-green foliage and shining scarlet fruit is extremely beautiful, surpassing Holly in appearance. It continues flowering and new berries are forming from late Spring until frost. The berries ripen in early Autumn and remain on the vine late into the Winter. The number of our hardy vines which can be grown without danger from frost in our Northern States is limited, and none are more beautiful than this or as easy of culture. It will grow and thrive in any situation, either shade or bright sunlight, and will take root in any soil. Price, young plants, which will bloom and fruit abundantly this year, 10 cents each; three for 25 cents.

The True Moonflower, *Ipomoea Grandiflora*.

This plant has become very popular and it certainly is a wonderful annual climber. It grows rapidly and blooms profusely. Flowers five inches in diameter, and quite fragrant. A very rapid summer climber, blooming the first season. No insects attack the leaf, and even if it did not bloom it would be very desirable because of the beauty of its foliage; but when is added to this the wonderful effect of its flowers, which are borne in great profusion, it cannot fail to please. The flowers are immense, pure white, sweet-scented, five inches in diameter, borne very profusely, and, as they open at night, are very striking. Being a free bloomer, the effect on a moonlight night is charming. It is a splendid plant for verandas. Try it. Price, 10c each; 75c per dozen.

The Blue Moonflower, *Ipomoea Learii*.

(From Ceylon.) A handsome, quick growing, perennial climber. Often flowers in bunches of a half dozen; the flowers are trumpet-shaped, about four inches across, of a rich violet blue, with five purple rays. The flowers are usually four inches in diameter—sometimes attain a diameter of five or even six inches. They are produced in large clusters and in the greatest profusion from June to October. A strong plant will give more than one thousand beautiful flowers daily, for months at a time, being well distributed over the plant from near the base to the top, forming usually one of the grandest floral displays ever seen in any country. The root penetrates the earth so deep that it is not seriously affected by drouth or other unfavorable weather condition. Price, 20 cents each; three for 50 cents.

A charming basket or pot plant, just brought to notice by the extensive advertising of John Lewis Childs, Floral Park, New York. The superb color, combined with airy grace and beautiful form, goes to make a flower which is in beauty perfection itself. The Chinese Tea Plant

*** AND ***

The Arabian Coffee Plant.

Two plants well worthy of a place in a collection as a curiosity.***

THE CHINESE TEA PLANT,

Hardy evergreen bush, easily grown anywhere in the lower South. One of the most valuable economic plants available for general cultivation over the South. Our soils all seem to suit it in a remarkable degree, and it will stand quite low temperatures, being more hardy than the olive. Only in the extreme South can it have any commercial value, still it seems nice to have a specimen plant of what comes into our every day life so much. Price, 20 cents each.

THE ARABIAN COFFEE PLANT.

Native in the mountains of southwestern Abyssinia. First fruited in the United States, at least in the open air, by Mrs. Julia Atzeroth, of Manatee, Florida. The shrub is a beautiful evergreen with white flowers and also makes a very nice pot plant; its glistening evergreen leaves are in fine contrast with the foliage of other plants. Price, 20 cents each.

Chinese Lantern Plant.

(*Physalis Franchetti.*)

A most magnificent plant for the garden during Summer, or for pots both Summer and Winter and a useful fruit. The plant produces numerous, large, inflated husks, much the shape of Chinese lanterns, at first a beautiful green color, changing to a yellowish hue and then to brightest scarlet, and as they hang suspended among the green foliage they present a most novel and strikingly beautiful appearance. Autumn frosts do not injure foliage or fruit, and it is a showy plant long after all others are killed. Price, 20 cents each.

WHITE DAY LILY.—*Funkia Alba.*

The *Funkias* all make handsome, showy plants, and this is the best of its class. Beautiful, broad, ovate leaves, with large, lily-like, pure white, fragrant flowers. Price, 20 cents each.

Variegated-Leaved Day Lily.

(*Funkia Variegata.*)

A showy and attractive foliage plant with beautiful wavy foliage, conspicuously and handsomely variegated and margined with pure white. A splendid foliage plant and greatly admired by all who see it. Price, 20 cents each; the two varieties or 30 cents.

Chinese Lantern Plant.

SUMMER-FLOWERING OXALIS.

These useful little plants have been much neglected. They are very effective in masses or beds, and are particularly valuable for edgings. The bulbs, when planted three inches apart, produce an unbroken row of elegant foliage and pretty flowers. The bulbs, which are the size of peas, or larger, planted the first of May, or earlier, will flower by the first of June, and will furnish a neat and attractive border the whole season.

Dieppi—Pure white. *Lasandria*—Rosy pink. *Purpurea*—Fine purple. Price, 2 cents each; 20 cents per dozen.

IVY—GERMAN OR PARLOR. (Not Hardy.)

Senecio Scandens—(New German or Parlor Ivy.) A more rapid or succulent kind, well adapted for covering trellis work quickly or trailing in the parlor. Leaves glossy-green and flowers yellow, in clusters. Price, 10 cents each.

SALVIA SPLENDENS, or FLOWERING SAGE.

One of the finest of Fall blooming plants, being completely covered in Autumn with long spikes of scarlet flowers, remaining in bloom until cut down by the frost. Price, 10 cents each; three for 25 cents.

Variegated Day Lily.

Our Improved Lily of the Valley.

LILY OF THE VALLEY.

Too well known to need any special description. Everyone knows their value for out-door blooming, but all do not realize that their sprays of fairy bells can be obtained in Winter just as easily. We offer strong, imported pips, that have been grown especially for Winter blooming. Plant half a dozen pips in a four-inch pot, keep rather cool until well started, then bring to the light and warmth, and keep freely supplied with water. You will be surprised at the rapidity of their growth, and at the size of their lovely fragrant bells. If you wish them for Easter start them in February. We can supply the bulbs all Winter. Price, 4 cents each; 40 cents per dozen.

The Beautiful New Climbing Plant, MANETTIA BICOLOR.

This is the most beautiful and desirable of all vines, as it can be grown either in the house or garden equally as well. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both Summer and Winter. The flowers are from an inch to an inch and a half in length, of a most intense scarlet, shading into flame, tipped with bright golden-yellow, and are covered with a thick scarlet moss. Price, 10 cents each.

Another Fine Climber, LOPHOSPERMUM SCANDENS.

A handsome climbing plant, of rapid growth, with heart-shaped leaves, and large, rose-colored, Gloxinia-like flowers. Its rapid growth and fine foliage, with its beautiful flowers, combine to make it one of the best plants for covering any unsightly object, or for large vases on the lawn. For a climber on the veranda, it has no equal. Price, 10 cents each; three for 25 cents; six for 40 cents.

SWAINSONIA GALEGIFOLIA ALBA.

A most desirable free flowering plant with pure white flowers, produced in sprays of from 12 to 20 flowers each, the individual blooms resembling a sweet pea. As a decorative plant for the window or conservatory, we know of nothing that will give as much satisfaction as the Swainsonia. Its easy culture, growing in almost any light position, its freedom of bloom, rarely ever being out of bloom, and the grace and beauty of the flower and entire plant make this one of the most popular plants for house culture. Price, 15 cents each.

SANSEVERIA ZEALANICA.

A beautiful plant, splendidly adapted for house decoration, as it stands drought and dust with impunity. The leaves grow to a length of three to four feet, and are beautifully striped crosswise, with broad, white variegations on a dark-green ground. It is a rare and beautiful plant, which should be abundantly grown for positions out of the reach of sunlight, where other plants will not thrive. It has a singular beauty for decorative purposes which other plants do not possess, and is useful for both Winter and Summer. For vases or baskets it makes a fine center piece, and it grows splendidly out of doors during the Summer. Price, 20 cents each; large plants, 35 cents.

DOUBLE TUBEROSES.

Its pure, waxy color and delightful fragrance make it the most popular of all flowers for bouquets and baskets. Our bulbs are very fine, and we can guarantee that all will bloom if properly treated. Price, 8 cents each; four for 25 cents; twenty for \$1; twenty-five, by express, \$1.

Pearl—The value of this sort over the common variety consists in its flowers being of large size, imbricated like a Rose, and of dwarf habit, growing only eighteen inches to two feet in height, its short growth making it desirable as a pot plant, or for Winter forcing. Price, 8 cents each; four for 25 cents; twenty for \$1; twenty-five, by express, \$1.

Excelsior Pearl—This variety is dwarfer than either of the other varieties in cultivation. Very large, pure white flowers, beautifully imbricated, delightfully fragrant. Price, 10 cents each; three for 25 cents; fifteen for \$1.

PILEAS (Artillery Plant.)

Muscosa—Artillery Plant, graceful fern-like foliage and immense numbers of very small flowers, which produce a snapping sound when sprinkled. Price, 10 cents each.

Repens—A very pretty little plant of drooping or creeping habit, peculiar moss-like foliage. Price, 10 cents each.

Grandis—Until it comes into flower you would never suspect that this belongs to the same family as the "Artillery Plant" (Pilea Repens.) It makes a most graceful plant, with large leaves of golden-green color. Price, 10 cents each; the three varieties for 25 cents.

PARIS DAISY (Marguerite.)

White—A ray of white petals around a yellow disc; blooms Winter and Summer. Fine for bedding or pot culture. Flower like the field daisy in size and appearance. A good Winter bloomer. Price, 8 cents each.

Yellow—Rather dwarf plant; bright golden-yellow flower, disc and center being the same shade. These two varieties make a beautiful contrast. Price, 8 cents each; the two for 15 cents.

FINE MIXED GLADIOLI.

Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded when in flower. We trust that many of our friends will avail themselves of these very low prices to plant largely; the spikes of bloom, richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents; 30 cents per dozen, or \$2 per hundred, postpaid; by express, \$1.75 per hundred.

SMILAX.

This very great climber is a great addition to our basket plants, possessing the rare qualities of delicate and tolerably dense foliage and vining habit, admirably adapting it to clinging or drooping, as may be required. For using for a green with cut flowers it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. Price, 10 cents each; three for 25 cents.

❖ ❖ DEUTZIAS. ❖ ❖

Gracilis—A charming Shrub. Flowers pure white, bell-shaped, delicately fringed and borne in such profusion as to cover the branches. Price, 10 cents each.

WEIGELIAS.

Beautiful Shrubs that bloom in June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage. They are very desirable for the border or for grouping, and also as specimen plants for the lawn.

Rosea, Nana—One of the most conspicuous Shrubs that we cultivate; flowers pink. It is a dwarf grower and admirably adapted to small lawns or gardens. Price, 15 cents each.

WISTARIAS.

A popular hardy Vine; grows very rapidly, climbing to the height of fifty feet or more; desirable for porches, trellises, etc., and when in bloom is truly magnificent. It flowers in early Spring, in long, drooping racemes, resembling in size and shape a bunch of grapes.

Chinese—(Siensia.) Flowers in clusters; pale blue; sometimes gives a second crop of flowers in the Fall. Price, 25 cents each.

Siensia Alba—Flowers borne in long, drooping clusters, as in the blue variety; pure white in color, making a most striking and elegant contrast. Price, 40 cents each.

TWO NEW SINGLE VIOLETS.

New Single Violet, Princess of Wales—This variety is far ahead of any other single Violet known. Of hardy, vigorous growth, the plants are wonderfully free-flowering, with stems from ten to twelve inches long; large green leaves of a thick, leathery texture. The grand single flowers, of a true violet-blue color that does not fade, are of round, symmetrical form, almost as large as pansies, and of the richest, most delicious fragrance. So large and circular are the flowers that some blooms will cover a silver dollar. Price, 15 cents each.

New Single Violet, California—This beautiful Violet has created a decided sensation. It was raised in California, where it was cultivated by the hundreds of acres as cut flowers. Buyers prefer it to all others. It is entirely hardy and of the richest dark blue and very fragrant. Price, 15 cents each.

THE TWO NEW VIOLETS FOR 25 CENTS.

❖ Hardy Double English Violet. ❖

This Violet is entirely hardy, perfectly double, a deep violet-purple color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the hardy Double English Violet. 15 cents each, two for 25c.

Violet, Lady Hume Campbell.

OLDER VARIETIES OF VIOLETS.

Lady Hume Campbell—An extra strong grower, with splendid foliage and large, very double, light purple flowers of delightful fragrance. Unusually free from disease and fine for forcing. Price, 10 cents each.

Swanley White—This is a sport of the popular and well-known Violet, Marie Louise, and is in every way equal to its parents, having the same growth, the same freedom of flowering, the same perfect perfume, and the individual flower equally as large and of the purest white. This is unquestionably the finest white Violet ever introduced. Price, 10c each.

Marie Louise—Bold, fine flowers, very fragrant and very prolific. The color is of a dark blue, flowers double. This is the favorite double blue Violet that you see in the florists' windows. Price, 10 cents each.

Boston Ivy.

(AMPELOPSIS VEITCHII.)

This Vine also goes under the name of "Japanese Ivy" and "Boston Ivy." It clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinite small leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. They are graduated down to very small ones. The texture is leathery and smooth. The foliage is closely overlapping, not a stem visible. Its color, very bright in Autumn, is a delicate green in Summer. We need not sigh for English Ivy to festoon our walls while we have Ampelopsis Veitchii. Price, 15 cents each; two strong plants for 25 cents.

Fine Double Herbaceous

Pæonies

We herewith offer some of the newest and most beautiful varieties in cultivation. These noble plants are exceedingly effective; the profusion and duration of bloom, combined with handsome massive foliage, accommodating habits, and easy culture, render them one of the most popular, hardy plants grown for lawn and garden decoration, or for mingling with Shrubs, or amongst herbaceous plants in borders and wild gardens. The flowers are large, massive, perfect in outline and most beautiful. (See cut.) We offer fine named kinds, distinct colors, 30 cents each.

THREE FINE NAMED KINDS FOR 75 CENTS.

HARDY SCOTCH, OR SWEET MAY PINKS.

They are dwarfer than the Carnation, growing about one foot in height, the color being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, clove scented, and the plants will stand out of doors year after year, being entirely hardy. They make a very nice border for beds of other flowers, or for cemetery planting. Price, 10 cents each; three distinct colors for 25 cents.

Hardy Hydrangea Paniculata Grandiflora.

Type of Best New Pæonies.

HONEYSUCKLES.

Aurea Reticulata—A variety with beautifully variegated foliage; leaves netted and veined with clear yellow; flowers yellow and fragrant. Price, 15 cents each.

Chinese Twining—Blossoms at intervals through the Summer, and retains its foliage late in winter. Flowers nearly white, quite distinct. Price, 15 cents each.

Monthly Fragrant—A fine rapid growing variety; flowers large and very fragrant; color red and yellow; a constant bloomer. Price, 15 cents each.

CLEMATIS PANICULATA.

One of the most beautiful of our hardy-flowering vines. The flowers are pure white, and are borne in great panicles or clusters of bloom, fairly covering the plant, so that it is a mass or sheet of fleecy white. These clusters are borne on long slender stems, which stand out boldly from between the glossy green leaves, and the gentlest breeze causes wavy crests of white to flow gently over their surface. The fragrance is delicious, resembling the English Hawthorn blossoms, and is so subtle and penetrating that a large plant in bloom will fill the air with fragrance. It begins to bloom late in August or early in September, at a time when most other hardy climbers are out of bloom, an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from fifteen to twenty feet, and spreading out when trained to wires or string. It is perfectly hardy in all sections of the country, and we can unhesitatingly say that it is, in our opinion, the most valuable among hardy climbing vines. Price, 25 cents each.

New Hydrangea,

PANICULATA GRANDIFLORA.

This is one of the most hardy Shrubs in cultivation. It attains a height of three or four feet, and is perfectly hardy in all parts of the country. The flowers are white, borne in immense pyramidal panicles nearly a foot in length. It commences flowering in July and continues until November. The plant should be cut back every Spring at least one-half of the last season's growth, as the flowers are borne on new wood and are much finer when the plants are treated in this way. This is the finest flowering Shrub for cemetery planting we know of. See illustration. Price, 15 cents each; large plant, 25 cents each.

FORGET-ME-NOT.**MYOSOTIS.**

The Forget-Me-Not is an old favorite plant, bearing clusters of star-shaped, delicate blue flowers, with white and yellow eyes. It flourishes best in a moist, shady situation, and it is in constant bloom nearly the whole season. If the seeds be sown in Autumn it will succeed best and flower earlier in Spring. Hardy perennial.

Alpestris, Blue—The loveliest blue flowers. 5 cents per packet.

Rose—5 cents per packet.

White—5 cents per packet.

Mixed—5 cents per packet.

HELIOTROPE.

Everyone loves the delightful fragrance and beauty of the Heliotrope, but very few are aware of the fact that it can be raised from seed as easily as Verbenas. From seed sown in the open ground the plants will flower in August, while a fine display can be had earlier by starting the seed in the house and setting out plants when the weather is warm.

Choice Mixed—Of many varieties. 10 cents per packet

Queen of the Night—A very dark variety. 10 cents per packet.

Pearl White—10 cents per packet.

CARNATION.

Carnations are general favorites for their delicious fragrance and richness of colors. They are indispensable, both for greenhouse culture in Winter and for the garden in Summer. Carnation, mixed colors, 10 cents per packet.

Marguerite Carnations—Flowering in a few weeks from seed. Most abundant bloomers; flowers very double, ranging through beautiful shades of reds, pinks, white, variegated, etc. These sown in Spring commence flowering in early Summer, and continue to bloom until checked by frost. They can be potted and taken in the house and will flower abundantly throughout the Winter, though if intended specially for Winter flowering, it will be better to sow later in the season. Mixed colors. 10 cents per packet.

Calliopsis, Golden Wave—A beautiful, showy annual bearing quantities of golden-yellow flowers. Fine for bordering. One of the best varieties of all the Calliopsis. 5 cents per packet.

MIGNONETTE.

Sweet Mignonette—(Reseda Odorata.) The good, old-fashioned, sweet Mignonette; it is the flower for the millions. 5 cents per packet.

New Giant Pyramidal—The plants, of pyramidal shape, attain a large size; large, reddish-tinged flowers. 5 cents per packet.

Golden Queen—This new variety has given great satisfaction; it blooms so abundantly that a bed of it appears as a mass of golden-yellow. 10 cents per packet.

SALVIA.

The Salvia is now a standard bedding plant, and well does it deserve its honor. It stands heat and drouth remarkably well, and its colors are very showy and intense. Seed is best started under glass, though self-sown seed frequently comes up in great numbers where a bed of these plants had been the year previous. Cuttings are easily rooted in August and September, and make fine Winter blooming plants for sunny windows.

Splendens—Large, scarlet; exceedingly showy and useful for cutting and for ornamental beds. 10 cents per packet.

PERENNIAL PEA.

No praise can be too high for this lovely iron-clad vine, that blooms continually from early Summer until late Autumn, minding neither heat or cold, rain nor drouth. Plants small and feeble the first season, but ever after a picture of vigor and healthfulness, bearing a profusion of long-stalked, clustered flowers, white, pink and deep rose in color, each flower an inch or more across.

Mixed, All Colors—5 cents per packet.

Pure White—Superb. 10 cents per packet.

PHLOXES.

Starred and fringed, beautiful and showy. 10 cts. per pkt.

Phlox, Drummond Grandiflora—In the Grandiflora we have a strain of large flowering Phlox that is most remarkable in variety and brilliancy of colors, but also for the perfection and size of the flowers—many of the single flowers are so large they will nearly cover a fifty-cent piece. 10 cents per packet.

New Large Yellow Phlox—Among the acres of Phlox Drummond Grandiflora growing at Fordhook, few have excited such attention as the small block of this new large yellow Phlox. It is a rich straw-yellow, of warm and glowing tone, while the flowers are of extra large size and fine form. The clusters of bloom are magnificent. 10 cents per packet; three packets for 25 cents.

SWEET PEAS.

The Sweet Pea is today one of the most popular garden flowers. Their pretty colors and delightful perfume make them one of the most charming flowers. Plant a good lot for for the beautiful bouquets of sweet blossoms they will yield you. The collection here offered is superb, all new and improved varieties of great beauty. Should be sown four inches deep and cultivated like common peas; may be sown very early. Cut flowers early and pick off seed pods as fast as they appear.

STOCKS.

Mammoth White Column Stock—The plant is of luxuriant growth, attaining in the open ground a height of three feet, and producing only a single long and sturdy spike of bloom, closely furnished with enormous, faultlessly formed double flowers of the purest possible white. 10c per packet.

POPPIES.

There is nothing more gorgeous than the Double Poppies, bursting with fullness, glowing with color, and like great Peonies or Snowballs in size. There are few flowers easier to grow, if the precaution is taken to sow early, and cover lightly, and none more useful to light up dark masses of shrubbery, mixed borders, or dull bits of landscape.
